Product Use and Descriptions:

We want you to enjoy using Winslow® resources, activities and assessment tools and we very much hope that they will contribute to learning, therapy, rehabilitation and improve life quality for end users.

To aid selection of appropriate resources, we do our very best to give as much detail as possible in the space allowed and show good representative imagery. This may include safety or suitability age guidelines, dimensions, potential hazards (such as small parts), material information, or notable guidance from manufacturers. If more pictures, photographs, instructions or diagrams are available, we will elaborate on our website www.winslowresources.com.

We go to great lengths to provide products that are robust, of good quality and are safe, however, it is ultimately the facilitator's responsibility to check suitability for clients, family members or pupils, to supervise use at all times, ensure they are used with care, interacted with appropriately and are maintained. Products cannot stand misuse or abuse.

Additionally, Winslow® supplies professional specialist intervention equipment for healthcare and educational professionals for therapy or assessment. These should only be administered by suitably trained professionals.

Shipping Costs, Pricing and Returns:

Delivery, packaging and handling is £7.95 plus VAT within the UK Mainland. For overseas, international and non-Mainland UK, please contact us for a quote.

Prices in this catalogue supersede all prices previously published by Winslow® and will remain fixed until December 2018. Winslow® reserves the right to change prices and withdraw products from sale without notice.

Products must be returned within 30 days, accompanied by a returns authorisation number obtainable from our team of sales advisors. Products require authorisation before they are sent back to us. The cost of the return will be payable by the customer unless the product is deemed faulty. Please note that some products are non-returnable and are marked in the catalogue with the **Non returnable** icon. Winslow® reserves the right to apply a 15% restocking fee.

Terms and conditions are available on request.

All New!

Deluxe Noise Monitor and Timer

Giant two-in-one visual and audible timer and noise controller. The timer mode adds structure and focus to tests and games with lights falling from the upper segment to the bottom. As the end of an activity approaches, lights turn red and a one minute warning tone sounds. When time is up, sounds plays and lights flash to clearly signal the end of the activity. The second mode displays lights that rise and fall, showing visually the noise level in a room. At a trigger point (set by the facilitator), a warning sound plays and lights flash, signalling the room to quieten. Won the Teachers' Choice Award for the Classroom 2017. Needs 4 C batteries (not supplied). Approx size: 38x20x11cm.

W856778

£ 89.95*

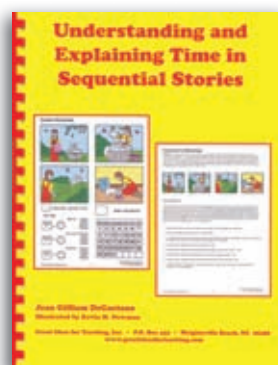

Large Digital Timer

Clear, easy to use timer with large display screen and giant 4.5cm tall digits. Useful for timing activity sessions. Capacity of 99minutes, 59 seconds. Size: 10x10.5x2.1cm. Requires 1 AAA battery (not included). Size of display 7.5x5.3cm.

W856461

£ 8.99*

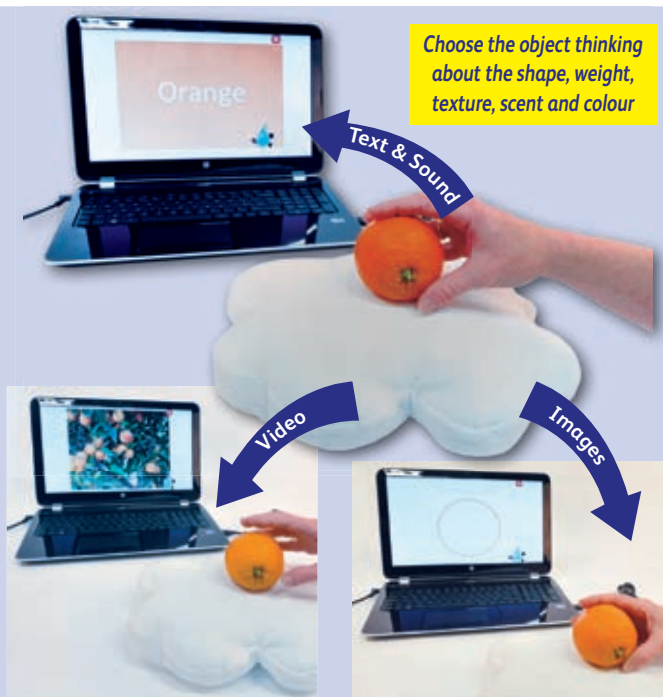

Understanding and Explaining Time in Sequential Stories - Book

These lessons help present the concept of time, which can be difficult to grasp. Illustrative stories are shown with participants choosing their favoured methods to record time (clocks, daily schedules, chart or calendar) during the activity. Questions are then asked to assess learning. Addresses how much time it takes to do things, long and short periods of time, passing of time and understanding that events have a specific order and must be recalled in this order to be accurate reflections of the event. Understanding time helps comprehension of daily routines, schedules and planning activities. Fully photocopiable. Ages 7-10.

W856743

£ 24.95

Magic Cloud

Bring inanimate objects to life! An easy to use amazing, versatile resource with educational, therapeutic and play value. It is client-centred, useful for all ages and abilities and is fully adaptable, from the objects used to the information that you decide to "attach" to it!

Attach a tag to a chosen object, place it onto the Magic Cloud which instantly plays video, sound, or pictures, chosen by you! Record your own sounds (music, rhymes, spoken words etc.), play video footage, show photos or diagrams etc. Great for oral motor work, practicing articulation or learning languages. Can be used to reinforce teaching goals such as object-recognition, matching, language concepts, association, understanding cause and effect etc. Support sensory work by varying textures, scents or the temperature of "tagged objects" or work on fine motor skills by altering the weight, size, shape to encourage use of different grips or improve muscle strength etc. Use for reminiscence activities by using appropriate "tagged" material and playing appropriate content.

A media library is included and you can easily add your own files. Includes cloud, software CD and 30 'tags'. Laptop not included.

W821160 Magic Cloud £ 94.95*
W821161 30 additional tags £ 45.00*

Communal Orientation Clock

A constant, reassuring source of information regarding time for communal areas such as wards, day care, residential homes etc. Time is displayed in 3 formats (traditional clock face, digital time (am/pm, day of the week, date), or now it's... (day, time of day e.g. morning)). The screen changes slowly and can display seasonal pictures or be customised with your own images and your place name. Developed in conjunction with hospital patients, intended to support those agitated by changes in routine, with confusion or Dementia.

- Large screen and clear display provides better visibility than standard clocks
- Identifies day and night, beneficial in 24 hour and constantly-illuminated settings
- Assists staff by answering and reinforcing repeated questions e.g. "where am I/what time is it?"
- Seasonal slide gives visual clues regarding time of year or outside views that may not be readily accessible
- Automatically updates information shown, so unlike basic signage is not reliant on staff to amend

Mains-powered. Includes 68cm screen, software and wall-mount.

W855788 £ 595.00*

Beamz

Inclusive music activity system for all ages and abilities! It only takes a few minutes to learn to play.

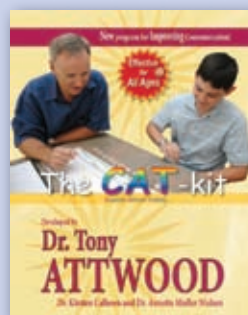

Beamz is fun for all, and accessible for those with additional needs. Simply break a light beam with a finger, a whole hand or a grasped object to instantly trigger sounds and play music. It can be played individually, with someone else and community groups or schools join multiples together for large group use.

Beamz can be used as a plug and play activity or purposefully to support educational or therapeutic goals. Play involves use of the upper limb, fine motor skills, unilaterally or bilaterally it is useful for hand therapy or upper limb rehabilitation. Vary hand movements or grasp heavier or larger objects during use to grade therapeutic input. Schools use to teach concepts and in music lessons as the studio software enables creation of interactive songs and the DJ element allows users to beat match, create loops, overlay samples and add effects using their own music content etc.

Includes: 50+ songs, with music genres for adults and children. Downloadable activities shows how to use Beamz with students, patients and clients for learning, skill development and includes 13 activities: 6 activities for all settings, 2 lesson plan excerpts, 2 games and 3 therapy protocol adaptations from the Beamz Therapy Guide created with the Department of Rehabilitation Sciences at Temple University.

Requires a PC, MAC or Apple iOS device. Size: 64x19x15cmD. More info and videos online at www.winslowresources.com

W855791 Beamz £ 249.95*
W855795 Beamz Transport Soft Case £ 39.95*

Mood Wrist Bands - Pack of 2

Keep it simple! Quickly flip a mood band worn on a wrist to communicate green "I'm OK" or orange "I'm not OK". A corresponding simple line drawn face visually illustrates "Happy" or "Sad" to aid identification. Useful for teachers or group facilitators to see quickly if participants need help or assistance.

W855911 £ 6.95*

Whatz-it

A communication aid created from a specific need for a simplistic visual tool for ASD clients to indicate difficulty, pain level, worry etc. in hospital environments. A graded colour scale slider allows expression of intensity, avoiding potential stress caused by having to select a "correct" answer and 9 magnetic symbol tiles with Widgit® symbols chosen by professionals. Useful for those who have English as a second language. Easily adapted by sticking other symbols, photographs, words etc. on the tiles e.g. food choices. Contact surfaces and tiles are mark resistant and washable, minimising infection control risk.

W856306 £ 79.95*

Communication Aid

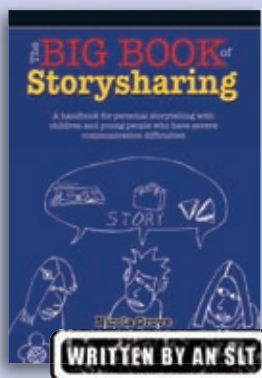

Swing-O-Meter

An easy to operate, spinner colour communication tool that can be used in many different ways. Use facial expression tiles to indicate how one feels or create personalised images for other uses - e.g. as a simple sequencing tool, indicating what will happen next, etc. Schools report that as this tool enables pupils to communicate quickly how they feel about activities, it helps manage challenging behaviour. Includes Board (21x14.6cm), 3 expression tiles, 6 white tiles (4.5x4.5cm) and a dry wipe pen.

W855909 £ 15.95*

All New!

**The Big Book of Storysharing**

A unique, highly effective technique enables people with severe and profound learning difficulties, autism, language impairment and communication needs to participate in telling their life stories. Conveying personal narratives has great value, contributing to self-development, formulating friendships and aiding learning and understanding of events. This approach has been used extensively in UK schools, therapy settings, residential and day centres. Written by a teacher & SLT. For children and adults.

W856481**£ 34.99****A Guide to Writing Social Stories™ - Book**

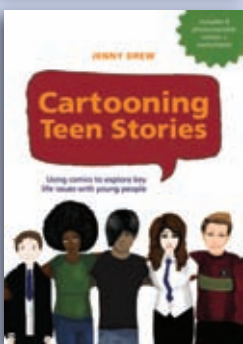

Social stories™ are widely used and can be valuable strategies to support those on the autism spectrum. This is a comprehensive, clear, step by step guide to writing personalised and effective interventions. Includes practical examples e.g. "Taking new medicine", "Working on my own", "Visiting the dentist", "why we do homework" etc and downloadable checklists to help achieve the best possible results. Written by a clinical psychologist and Child and Adolescent Psychiatrist.

W856491**£ 15.99****Make Your Own Picture Stories for Kids with ASD - Book**

Be prepared with this little book that provides simple instructions of how to create effective picture stories using basic drawings and limited text. Knowing how to create these is an invaluable skill to help parents and carers to cope with sudden or difficult social situations, emotions, transitions and challenging events. Even if well equipped with flashcards, books and apps, every eventuality can never be covered, but if knowing how to create these "on the hoof" can make a real difference!

W856493**£ 8.99****Successful Social Stories™ for Young Children - Book**

"Written by a physician who became a mom of a boy with autism and one of the most talented Social Story™ authors in the world" states Carol Gray in her introduction. Packed full of examples of social stories for young children including: what does "excuse me" mean?; I am learning to listen; how to find another favourite food; stories about toileting, how to stay safe around wasps etc. These stories are contextualised with practical life events.

W856508**£ 15.99****Cartooning Teen Stories - Book**

Most of us are familiar with social stories™, but this resource introduces the Comic Participation Model, a powerful method of creating visual tools to work with children, adolescents and adults, or to help them express needs, feelings and thoughts. Example comics cover Young Carers, ADHD, LGB, Homophobia, Gender, Trauma and Resilience. The book is a comic explaining how to make your own comics. For therapeutic or educational use. Written by a Prevention Worker for Youth Offending Service.

W856490**£ 22.99**

All New!

**Illustrated in Comic Strip Format For Adults****Trauma is Really Strange - Book**

What is trauma? How does it change the way our brains work and can we overcome it? This book explains how trauma confuses the brain and affects the body. Uses metaphors, essential scientific facts and explains how coping with it involves changing the body's physiology and the techniques to achieve this. Appropriate imagery for adults/teenagers.

W856609**£ 7.99****At War With Yourself - Book**

Focuses on post traumatic stress and the military. Addresses familiar difficulties experienced by those affected by PTSD such as coping for quick exits, re-living flashbacks and situations triggered by seemingly insignificant daily events such as a sound, movement or a scent. The central character describes his unique experiences and the journey to find coping methods. A unique tool seeking to offer support and understanding in an honest and visual way.

W856610**£ 7.99****Getting the Picture - Book**

A visual learning and comprehension aid for teenagers who find social situations challenging. Designed to improve inference, narrative and sequencing skills by correctly interpreting and responding to behaviour. Illustrations show different people and places with questions to encourage prediction and inference skills. Participants consider who the person in the picture is, what they might be doing, where they might be going, how they may be feeling and why. Questions are completed individually or in groups, with three types of illustration to work with, single person, picture sequence or scenes. Also teaches sequencing via muddled picture narratives that need to be ordered. Photocopiable.

W855423**£ 17.50****The Social Skills Picture Book**

30 real-life social scenes use photographs of children with scenarios broken down into basic components. Demonstrates critical social skills by visually illustrating "right"/"wrong" ways to approach situations and positive/negative consequences. The facilitator explains situation and asks questions to aid understanding. Participants can role-play skills until confident to use them. Topics include: making conversation, initiating play, managing emotions and empathy, teaching social skills, making social skills picture stories, communication, play and emotion-related skills.

W850778**£ 37.95****My Social Stories Book**

Taking the form of short narratives, these stories take children step-by-step through basic activities such as brushing your teeth, taking a bath and wearing a safety belt in the car. These stories are written for pre-schoolers aged 2-6 and are useful primer for non-autistic as well as autistic children. It contains approximately 100 stories and is illustrated throughout with line drawings which form a visual counterpart to the text.

W850677**£ 12.95**

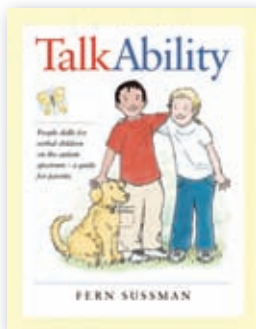

The
Hanen
Centre®

We are the sole UK supplier
for The Hanen Centre®

"We have worked in partnership
with Hanen for over 16 years..."

Who Are They?

The Hanen Centre was founded over 35 years ago. It is a Canadian charitable organisation with a global reach. The Hanen approach has led the way in changing early language intervention by putting parents first in order to help children best. A variety of resources, including guidebooks and DVDs, help parents and professionals develop the communication skills of young children. Based on exhaustive research in the field of early childhood language development and intervention, Hanen resources are designed specifically for the most important people in a child's life – their parents, caregivers and educators – to help them build communication naturally throughout the day. Speech-language pathologists/therapists and other professionals around the world incorporate these trusted resources into their work to help parents and other caregivers play a leading role in children's early language and literacy development.

TalkAbility - Book

An extremely valuable resource for parents of verbal children on the Autism spectrum and the professionals who support them. It contains a wealth of practical strategies that can be built into everyday conversations and activities. By applying these strategies, parents and professionals help children learn to: take appropriate turns in a conversation; wait for others to take theirs; tune into what people say without words in a conversation; understand how others feel; respond appropriately; learn how to play with other children and make friends.

W853495

£ 44.00

I'm Ready!™ - Book

Written specifically for parents to help them build critical early literacy skills before their child starts school. This book takes the most current research in emergent literacy and breaks it down into fun, easy-to-use tips and strategies, helping even the busiest parent make educating a part of daily life. Turn routine activities into enjoyable opportunities to prepare for reading success!

W855715

£ 20.00

Use the Make
Play R.O.C.K.™
Series for
encouraging play

Series: Make Play R.O.C.K.™

Plan for People Play

This is the first book in the Make Play R.O.C.K.™ series focusing on learning how to create the best possible play situations, encourage participation, communication and develop social interaction skills in a purposeful supportive way based on current research on what helps children learn best. "People Games" rely on engagement with others instead of focusing on toys and whilst playing, children learn key social skills that create the foundations for building successful relationships with others.

W855711

£ 15.00

Take Out the Toys

The second book in the Make Play R.O.C.K.™ series focuses on expanding "functional play" ability (early play involving conventional or expected actions using toys). These skills provide a foundation for the formulation of later skills so it is important to optimise these as early as possible. Play for children who have Autism or other developmental challenges may not be as advanced as other children their age, but if these specific research-based techniques are used during everyday play activity, much can be done to build skill levels.

W855712

£ 15.00

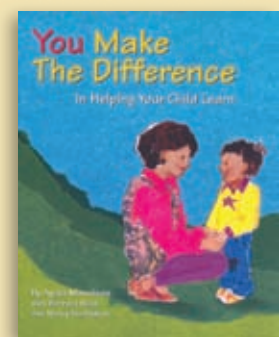

Put Pretending into your Child's Play

Children with additional needs often find it difficult to pretend, a stage of development that lays the foundation for key social and learning skills. This resource focuses on expanding pretend play skills during fun, everyday activities. It provides a context of how pretend play fosters language, social and emotional skills using research-based strategies. Identify each stage of pretend play, encourage imitation of new pretend play actions, identify when to move to the next developmental stage and encourage use of new skills with a variety of toys, in different situations.

W855713

£ 15.00

Series: You Make the Difference®

You Make the Difference® DVD

Shows real mums and dads interacting and having fun with their children during everyday activities, whilst purposefully supporting their learning and development. Easy-to-use, with practical strategies proven to increase social, language and literacy development. Invaluable resources for parents/carers, helping them enrich the relationship with their child and build self-esteem as parents.

Series: Learning language and Loving it™

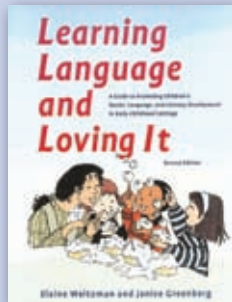

Learning Language and Loving It™ - Guidebook & DVD

An easy to use early-years programme that really works! The guidebook combines language acquisition and language facilitation with a child-centred approach. Supports conversational turn-taking from the earliest communication development stages. A practical framework encourages group participation, maximises language learning within daily routines and play, facilitates peer interaction and emergent literacy, providing fundamental supportive strategies for children with special needs and language delays.

The DVD uses real-life examples of implementing these strategies in play and daily activities to create enriched, interactive language-learning environments. Includes how to support children with special needs and language delays, English as a second language and typically developing children. Running time: 4 hours.

- SEN In The Classroom
- Sensory Resources
- Autism & Aspergers
- ADHD Resources
- Dyslexia

Meet the Author!

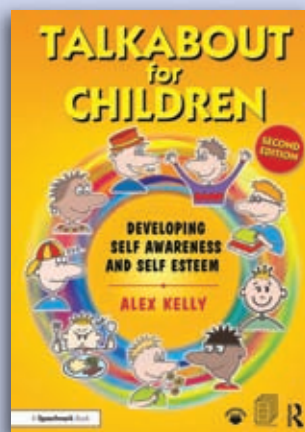

Alex Kelly

Talkabout is a complete programme that develops self-esteem, social skills and friendship skills. It is based on teaching children in groups in school or college but can be adapted for 1:1 sessions or at home. It uses a hierarchical method of developing skills where basic or foundation skills are taught before more complicated skills.

Alex worked in a FE college with a large number of young adults with intellectual disabilities. After a year of social skills interventions, using pre and post assessments, she noticed a pattern in who was responding well and who wasn't.

It centred around the hierarchy of self-awareness coming before non-verbal skills and non-verbal coming before verbal and assertiveness coming last. Alex developed an intervention based on this hierarchy which was published after extensive testing and piloting. Many years later, Talkabout has evolved into a series of books for specific client groups, because very different approaches are needed to engage different children and adults

All New!

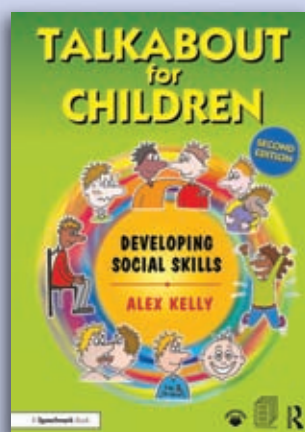

Talkabout for Children 1 (2nd Edition) - Book

Designed for primary school aged children or older children with special needs. This resource provides the foundation of the Talkabout hierarchy. Includes 40+ self-awareness and self-esteem activities that are key to developing effective social skills. Includes: a year's teaching plan to incorporate sessions into a school curriculum, a short assessment, forms and evaluation sheets. For age 4+ years. 2nd edition.

W856763

Solve Common Teaching Challenges in Children with Autism - Book

A "how-to" guide for educators, therapists, parents and those supporting people with Autism. It addresses common challenges illustrated by case studies such as motivation with appropriate reinforcement, teaching requesting and responding skills, learning to learn – attending to the person teaching, waiting quietly for instructions, waiting for feedback, prompting (using physical guidance, gesturing, verbal instruction), optimising comprehension without overwhelming, stressing quality over quantity and making activities person-centred.

Learning Tracks - Book

The Learning Tracks Framework tool is designed for planning and assessment of children and young people at the lowest levels of learning with severe and complex needs. It is designed to record small learning steps via behaviour, body language, gesture, eye pointing etc. It can be implemented in any setting to assess, understand learning styles and offers a vocabulary for describing learning and structure for planning. A downloadable booklet enables immediate use. Explains the underpinning theory, curricular content and guidance for use.

W856768 £ 34.99

Engaging Learners with Complex Learning Difficulties and Disabilities - Book

Those with complex learning difficulties/disabilities often have comorbidities and overlapping conditions, presenting as challenging learning patterns and extreme behaviour. Combinations of issues and needs (social, physical, medical, sensory, communication and cognitive) can disrupt educational progress. This Engagement for Learning Framework was developed and trialled by 100+ settings (early years to post-16) and offers professionals a shared, structured way to assess, record and develop individual learning pathways and evidence progression.

W856711 £ 27.99

Assessing Children with Specific Learning Difficulties - Book

A range of practical techniques for assessing children with specific learning difficulties. Provides guidance on what assessment should be used, when and why alongside ideas for implementing strategies. Topics: literacy, numeracy and movement, attention/behaviour, self-esteem/emotional literacy, motor development/co-ordination, motivation, learning styles etc.

W856710 £ 25.99

Teaching Children and Young People with Special Educational Needs and Disabilities - Book

Practical, comprehensive book for teaching those aged 0-25 years with special educational needs and disabilities. Includes: learning in Pupil Referral Units, promoting positive behaviour, planning/assessing learning, cross professional working, including parents/carers and advice on specific needs e.g. PMLD, Autism, Speech, Language and Communication Needs, dyspraxia, dyscalculia, etc. Contributors are UK-based educational and therapeutic professionals.

W856769 £ 23.99

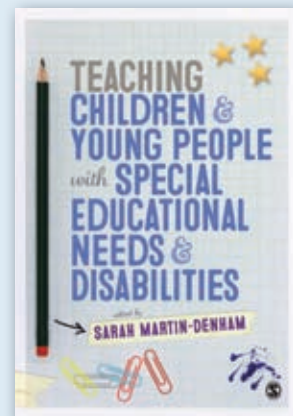

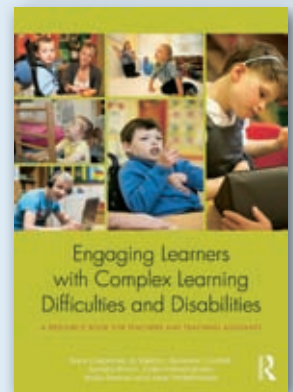

Roll a Ball Tools

Each ball changes colour with a gentle roll of the fingertip. Designed as mathematical aids, but they also provide tactile, auditory and visual feedback, creating non-goal orientated fine motor fiddle tools for those who find repetitive movement calming. Choose 20 turning balls, or 10 turning balls. Supervise use at all times, this item is not a toy.

This set focuses on understanding Autism from different perspectives - the individual, siblings, parents, teachers and other professionals. Carefully constructed questions prompt thinking and discussion to raise awareness levels. It highlights where more support is necessary and serve as a learning tool or resource for groups. Examples: Parents - "What important things would it be useful for others to know about your son or daughter?"; Siblings - "Do you ever feel jealous or cross?"; Individual - "What is the best thing about having Autism?"; Professionals - "What triggers have you noticed in relation to actions, response and behaviour?"

Language Development Lessons for Early Childhood - Book

This resource supports the development of listening skills via varied content whilst providing structured repetition for practice and reinforcement. It provides different ways to encourage young learners to answer orally and communicate with others. Offers three techniques to encourage interaction; "yes/no answers" (enabling the reluctant talker to shake the head or simply answer no or yes), "choosing between answers" and "completing sentences". Written by a Speech and Language Pathologist. Fully photocopiable. Gradeable, ages 5-8.

Language LAB™ Program for Grammar, Vocabulary & Storytelling

This is a response to intervention (RTI) evidence-based programme for children 5–10 years old whose language abilities fall below expected standards. Aids early identification of pupils needing referral for possible language and/or learning needs. This structured programme is for groups of 2–4, delivered over 15-hours, (60 or 90 minutes weekly) introducing systematic, research-based instruction prior to SEN referral. Targets verbs (regular & irregular tenses), adverbs, nouns (regular & irregular plurals), adjectives and connected speech (clauses, conjunctions, negatives, direct and indirect objects). Scripted story sessions teach narrative skills at 3 levels, basic grammar components for retelling stories, how to create stories and add "sparkle" and cohesiveness. Includes: resource guide, printable CD-ROM (for all books), homework connections workbook, skill drill workbook, language LAB station signs, talk aloud cards, 6 audio CDs with 5000 sentences, 90 story station cards and language screener cards.

Working with children who have language difficulties? Turn to page 63 - 73

Today over 100,000 children and adults, use Makaton symbols and signs, either as their main method of communication or as a way to support speech

Makaton

Makaton is the UK's leading language programme for adults who are at the early stage of communication and language development. This structured approach can help people who are learning English as a second language to communicate straight away to aid learning.

It is regularly used in mainstream schools to support all children to develop communication, language and literacy skills. It supports inclusion as children with and without language difficulties can communicate with each other, learn and play more easily.

Why not visit the website to explore our full range of Makaton Products? www.winslowresources.com.

If you want to find out more about the Makaton Charity, including finding training courses, simply visit www.makaton.org

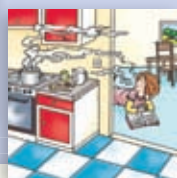

MAKATON® Nursery Rhymes Book

Ideal for use at home, nursery or school! Nursery rhymes are wonderful learning tools, as colour, counting, size, animals etc form the bulk of the subject matter. Adding signs gives additional visual clues towards understanding and remembering. This illustrated book matches signs to words and music for 19 favourites, including Old MacDonald, The Wheels on the Bus, Jack and Jill etc with some finger spelling and mime thrown in too!

£ 10.95*

Just for Laughs - 100 Cards

Understanding humour can be difficult, unpicking what jokes mean and why they are funny often relies on comprehending the multiple meanings of words and phrases. This resource addresses this difficult language issue. Each card features a silly joke with a colourful comic illustration. The reverse has a four part lesson that helps players understand why it is amusing. Includes 100 jokes with multiple meaning words, phrases and sentences (colour coded for ease) and a booklet with references. Can benefit those with LD, neurological, ESOL and people wanting to improve their ambiguous language skills. Card sizes: 7.5cmW x 13cmH.

W856135

£ 21.95*

It's Raining Cats and Dogs - Book

The English language can be extremely confusing and illogical, especially for people with an Autism Spectrum Disorder (ASD) who often interpret meaning in a very literal way. Why should an announcement that cats and dogs are falling from the sky indicate heavy rain? And what have chickens got to do with being a coward? A witty and stylish insight into the mind of someone with an ASD that beautifully illustrates why problems can be experienced understanding common phrases

and idioms that others accept unquestioningly as part of everyday speech. Quirky drawings entertain and inspire figures of speech giving confidence to use them.

Verbal Reasoning Activities - Workbook

This valuable workbook provides numerous visual clues to assist children in expressing verbal reasoning. Seven types of questions are presented:

- What would happen if ...?
- What happens when ...?
- What would happen?
- Why is this happening?
- Why is this true?
- Why or why not?
- Why do you think?

W852359

£ 25.95

Comprehending and Verbalising Visual Clues - Book

Children learn by watching what is happening around them, interpreting actions, feelings, sequences etc to formulate an understanding of what they see. Pictures give the same clues and messages. If difficulties are experienced interpreting events and/or images, this can impair understanding of daily life. These activities help develop skills in identifying clues that give pictures meaning as well as prompts to talk about how they knew a certain thing was happening and the visual clue that gave them the answer. Ages 3 1/2 - 7 years

W850882

£ 25.00

150 "What's Wrong with this Picture?" Scenes - Book

Contains 150 photocopiable worksheets which ask the participant to find what is wrong in a particular picture. Scenes are graded so an appropriate level can be chosen (50 scenes have one wrong item, 50 scenes have three wrong items and 50 scenes have five wrong items).

W852393

£ 21.00

Mini-Mysteries Fun Deck® - 56 Cards

Become a detective and solve the case of "The Missing Backpack" or "The Broken Vase," and more! As children solve each mystery, they will sharpen their comprehension, reasoning, and problem solving skills. 56 different cases, each with a "Wh" question and 3 clues to solve the mystery.

W854539

£ 11.95*

What's Different? Fun Deck® - 56 Cards

Can you see the differences? These match-up pairs have pictures with minimal to obvious differences, which will help build visual discrimination skills. Your students will love the challenge of locating the differences between the cards.

New!**Expressions Mirror Faces - Pack of 10**

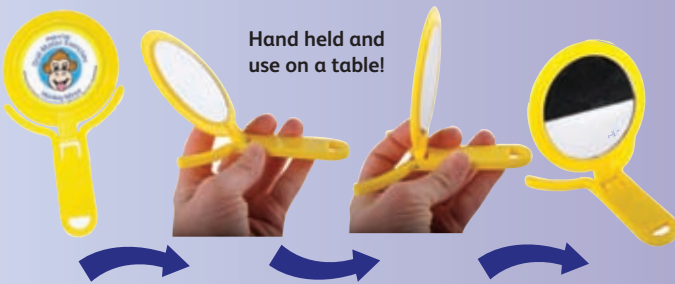

These 10 head-shaped safety mirrors can be used in different ways to engage children. They can be held to practice SLT exercises, but are light enough attach to walls (approx 30g each), e.g. with Velcro™ or blue tack, so why not dot around the therapy space and decorate with hats and props and encourage clients to enjoy being "different characters" whilst practicing speech, phoneme and oral motor exercises. Plastic. Size: 21 x 18.5cm. For 3 years+.

W856730**£ 24.99*****Little Mouth Demonstrator**

A smaller version of the below Large Mouth Demonstrator. This sturdy, latex mouth puppet helps explain proper tongue placement by opening and closing the mouth and manipulating the tongue. The squishy rubber gums, teeth, and tongue makes articulation practice fun. Latex. Size: 7.5cmW x 5.5cmD x 3cmH.

W856141**£ 8.95*****Large Mouth Demonstrator**

This large mouth is a useful visual tool, essential for SLT's. Firstly, the tongue is fully manipulative and by using both hands to create jaw and tongue movement, can demonstrate where articulators must be to correctly create speech sounds. Additionally, it can be used to explain oral motor exercises or if using probes or Z Vibes, visually explain what is going to happen next and why. It can also be used to discuss oral hygiene and effective brushing techniques. Includes toothbrush and comprehensive facts about mouth. Latex free. Size: 14.5cmW x 11.5cmD x 7cmH. Recommended for ages 3+.

W856143**£ 34.95*****Portable Angle Oral Motor Mirrors - Set of 4**

Intended for oral motor therapy. Their clever design means they can be used on a table top or hand-held. Smooth, but robust pivot action facilitates easy, quick adjustment to different angles and the size ensures a clear reflection can be seen but not enough of the environment to distract from the focus task. Great for oral motor exercises. Warning: glass mirrors encased in a protective moulded frame. Use under close supervision. Set of 4. Each: 9.5cm x 17cm x 0.5cm.

W856142**£ 17.95*****All New!****6 in 1 Webber® Portable Therapy Set**

Are you a busy on-the-go therapist? This is a great solution to all equipment and storage needs! There is so much packed into this compact, folding, easy-to-carry therapy center made of durable vinyl. Includes a magnetic dry erase board, pocket chart, Velcro® receptive panel, acrylic mirror, two removable pouches, storage for your pens and more. Tote is 35x32x6cm & mirror 23x30cm.

W856660**£ 69.95*****Speech Therapy Mirror Bling - 24 Props**

Who says therapy has to be serious? Use these themed frames and 24 brightly coloured props in front of the therapy mirror to capture the imagination, taking oral motor exercises to the next level of fun! This method of engagement may assist those who find working with a self reflection uncomfortable as they are "in disguise". Use how you want, but we suggest attaching the frames to a mirror with blue tack or a similar method (not included). Frame 11.5Wx8.5cmH. Choose from Comic Book Superheroes including (Superman, Batman, Robin or Joker) or Dress Me Up (glasses, hats, facial hair). Props may need to be manually adjusted if used on small heads.

**Building Language: Word Meanings - Book**

Accessible, clear and theoretically rigorous manual containing a large variety of therapeutic exercises for building understanding and recall of words by strengthening semantic processing. With its roots firmly based in cognitive neuropsychology, it contains 200+ pages of reproducible worksheets for "picture meanings" (odd picture out selection), "spoken word - picture links" (spoken word to picture matching); "written word - picture links" (written word to picture matching), "words in groups" (word decision between and in category).

W851212**£ 62.95****Building Language: Word Sounds - Book**

Based on a cognitive neuropsychological framework. Targets facilitation, strengthening and development of recognition and production of phonemes and graphemes in single words. The workbook has four major sections, with key learning strategies (eg, lip shape cues) provided in the structure of the exercises:

- Hear the difference: Recognising the difference between speech sounds.
 - The shape of words: Recognising the sound and shape of written words.
 - Sounds & letters: Matching sounds and their letters (strengthening phoneme grapheme correspondence).
 - Spell the rhyme: Recognising spelling and rhyming patterns.
- 210 pages, illustrated, wire-o-bound

"An excellent resource for working with patients, particularly those with aphasia. It builds understanding of words by strengthening semantic processing and increasing complexity of tasks. It starts from a much simpler 'odd one out' task (related and unrelated) and builds word meanings with 'spoken/written word to picture match' through to a range of divergent semantic tasks. Easy to follow instructions at the beginning of each section help structure clinician goals and provide carers/other allied health professionals with helpful hints to complete tasks. Perfect for the busy clinician; ready made worksheets covering a broad range of semantic impairments making this an invaluable resource that is a permanent fixture in my therapy bag." Khadeeja Rashid, Clinical Lead & SLT.

W851213**£ 62.95****Building Language Series - 2 Book Set**

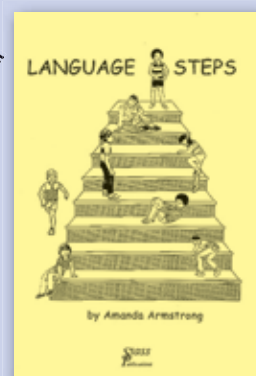

Purchase both "Word Meanings" and the "Word Sounds" together.

W851211**£ 110.00****New!****Speech and Language Screener Take Along® Tool**

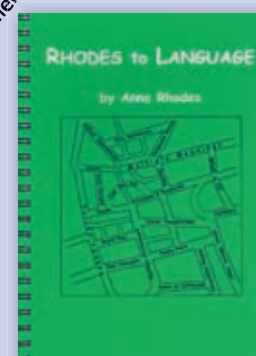

Use this non-standardised Speech and Language Screener as a quick initial screening tool to gather baseline data, identify areas of concern, monitor progress, determine if further evaluation is necessary and develop appropriate goals. Assesses: Articulation; Connected Speech; Following Directions; Grammar; Inferencing; Listening Comprehension; Phonological; Awareness; Questions; Social Skills and Vocabulary. Sections are adaptable. 64 pages.

W856635**£ 11.95*****Language Steps - Book**

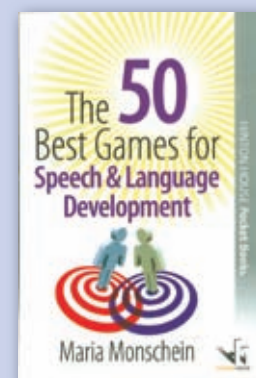

Designed for SLT's, teachers and parents to develop comprehension and expression in spoken language from a one- to a four-word level. Comprising of seven sections (1, 1-2, 2, 2-3, 3, 3-4 and 4 word levels), each has suggested therapy and homework activities that can be used for individuals or groups. Score sheets are provided to enable accurate recording of progress. Clear instructions. Photocopiable.

W851622**£ 45.00****Rhodes to Language - Book**

British Picture Vocabulary Scale (BPVS-3) 3rd Edition

BPVS is the leading assessment tool to assess the receptive vocabulary of children as young as 3 to 16 years of age. It has a simple, appealing format with vivid full colour illustrations and black outlines to support those who may be colour blind.

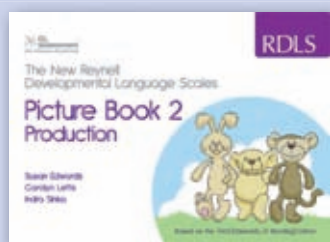

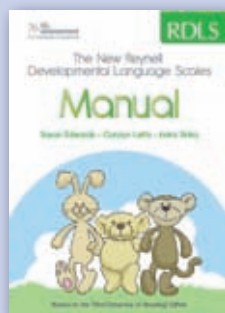

- Identifies delays in vocabulary development, even before children are in full time education, informing intervention strategies to help extend vocabulary.
- Suitable for non-readers and those with specific learning difficulties such as Autism or CP as no reading is required - responses can be given by pointing or gesture.
- Time efficient, can be used as an ideal benchmarking and progress-checking assessment from pre-school to secondary school.
- 1-1 session format - the facilitator says a word and the pupil responds by selecting a picture from four options that best illustrates the word's meaning.
- Large format and transportable carry-case.
- 10-15 minutes test time. For 3-16 years.

The New Reynell Developmental Language Scales (NRDLS)

The NRDLs is the most widely used assessment and diagnostic tool for identifying speech and language delays and impairments in very young children. It has been standardised on more than 1,200 UK children, 4th edition content has been revised in line with latest research and practice and it is administered and highly regarded by teaching, health and research professionals.

It provides essential information about a child's production and understanding of spoken language, assesses communication skills on entry into nursery school and identifies those who need immediate referral and support. Two scales are used:

Scale 1: Language production: explores understanding of vocabulary items and grammatical features.

Scale 2: Comprehension: assesses the production of the same features of language.

- Straightforward to administer with an easy to use, easel format
- Uses a mix of play-based activities and a range of stimulus material, including a trio of new characters (Monkey, Teddy and Rabbit) with appealing full colour illustrations
- Overview of language ability guides intervention and evaluates the effectiveness of those interventions
- Multilingual toolkit, giving advice and guidance on how to adapt and use the NRDLs with children who have English as an Additional Language
- For ages 2-7 years
- Duration: 35-60 minutes.

Wellcomm: The Speech and Language Toolkit

With 1 in 10 children under 5 years of age reported as experiencing difficulties in learning and communication, early identification is crucial. WellComm enables the screening process for young children to be carried out quickly and effectively, accompanied by a wealth of customised fun and engaging intervention material to improve language development. The unique traffic light system helps practitioners understand the child's current level of speech and language and provides an action pathway:

- 1) Considers referral to a specialist service for further advice/assessment
- 2) Extra support and intervention required
- 3) No intervention required

- Assesses communication skills on entry to nursery and school, then measures progress throughout.
- Identifies children with potential language difficulties and offers a range of customised interventions to help support language development.
- Identifies children in need of referral.
- Provides tailored intervention strategies for all children via 150 photocopiable intervention activities which are fun, friendly and engaging
- Easy to administer and score, 10-15 minutes test time.
- For 6 months to 6 years.
- Suitable for Early Years Practitioners, SENCO's, TA's, Nursery Workers, Speech and Language Therapists

Action Picture Test - Revised Edition

Standardised test that requires children to give samples of spoken language for evaluation. The test considers grammatical structures used, words used to convey information and the grammatical structures used such as nouns, verbs, prepositions, tenses, irregular forms of plural and past tenses, simple and complex sentence construction etc. For use with 3-8 year olds. Norm referred at six-monthly intervals to enable production of comparative results.

W851049

£ 36.95*

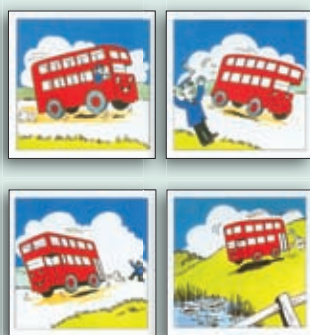

Word Finding Vocabulary Test - Revised Edition

Assessment to ascertain the extent to which pictures of objects, arranged in order of difficulty, can be named correctly. Most objects included have no alternative name, so the responses of children with difficulties can be quickly measured. 50 line-drawn pictures, manual and photocopiable scoring form. Norm referred at six monthly intervals to enable production of comparative results. For use with 3-8 year olds.

W852412

£ 39.95*

Bus Story Test - Revised Edition

Revised Test. The age level of consecutive speech used in retelling a story can be assessed from the information content, sentence length and grammatical usage. Includes a coloured picture story book, photocopiable scoring forms and manual, but requires use of audio recording equipment. Suitable for 3-8 year olds. Norm referred at monthly intervals to enable therapists to produce comparative results.

For individuals or to universally screen large groups

Test of Silent Word Reading Fluency-Second Edition (TOSWRF-2)

Reliable, valid tool to assess reading vocabulary and general reading ability by counting the number of printed words that participants can accurately identify within a set time. Highlights those with word level and reading difficulties and documents the degree of the problem. Rows of words are presented, ordered by reading difficulty, with no spaces (dim/howfig/blue). Participants draw a line between as many words as possible (dim/how/fig/blue). For individuals or to universally screen large groups. Two forms can be used to increase reliability. Valid for a wide variety of subgroups. Enables progress monitoring (up to four times a year). Includes: manual, 100 record forms (25 each of alternate forms A,B,C & D), storage box. Normed on school and college ages 6-24. Admin time: 3 mins (each form). Useful for teachers, SEN specialists, psychologists etc.

W856666

£ 275.00*

Understand how children attach meaning to words

WORD Test 3-Elementary

Assesses the ability to recognise and express semantic attributes critical to vocabulary growth and language competency. Understand how children attach meaning to words and understand why they may struggle to learn. Six subtests: Associations—choose one semantically-unrelated word from among four and explain the choice in relation to the common category of the other three words; Synonyms—give a one-word synonym for each stimulus word; Semantic Absurdities—identify and repair an absurd statement; Antonyms—give a one-word opposite for each stimulus word; Definitions—state the definition of words that include critical attributes; Flexible Word Use—give multiple meanings for words.

Measure word mastery, reading comprehension and overall academic success. Examiners Manual and 20 test forms. For ages 6-11. Admin Time: 30 mins.

W856667

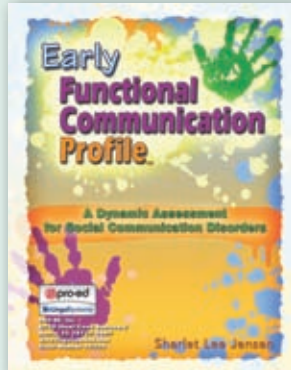

£ 149.00*

Recordable devices to help the Bus Story Test can be found on page 62

All New!**Early Functional Communication Profile Set (EFCP)**

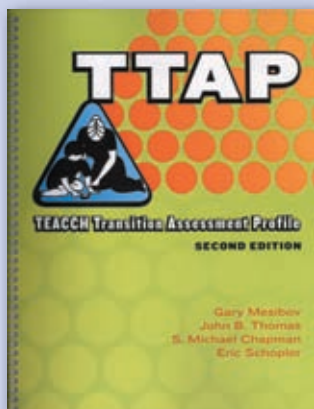

A dynamic assessment tool measuring subtle, functional changes in nonverbal communication skills for children aged 2-10 with severe/moderate disabilities. Sets a baseline for therapeutic interventions and to monitor ongoing progress. A hierarchy of prompts highlight the level of skills that can be performed and responses to prompts, classified by: developmental level—skills arranged from easiest to hardest; level of environmental prompt—these can be where the tester or test items are positioned (in front, to the side or back of the child), with gestural prompts (passing object, pointing); verbal cues (saying "your turn," asking questions). Includes level of adult-action prompt—subtle physical and visual prompts such as hand-over-hand, patting the chest or arm, waiting with hand reaching out, waiting expectantly, etc. Subtests: Joint Attention-Requesting Objects/Receptive Language, Social Interaction-Turn-taking, Communicative Intent—Requesting Continuation of Actions/Requesting Assistance/Protesting, Social Interaction—Response to Greetings. Content: Manual and 15 profile forms. Admin time: 30-45 mins.

W856668**£ 65.00*****Fluharty Preschool Speech and Language Screening Test-Second Edition (FLUHARTY-2)**

Provides rapid identification of preschool children where a complete speech and language evaluation is recommended. Easy and quick to administer test that is appealing to children. Contains five subtests:

Articulation, Repeating Sentences, Responding to Directives and Answering Questions, and Describing Actions and Sequencing Events.

Scores reflect performance in articulation, receptive language, expressive language, and composite language. Provides standard scores and percentiles for subtests and composites. Space for noting phonological process errors, voice quality and fluency. Contents: Manual, picture book, 25 record/profiling forms, 3 each of yellow, white, blue, and black blocks in a sturdy storage box. For ages 3-6. Admin time: 10 mins.

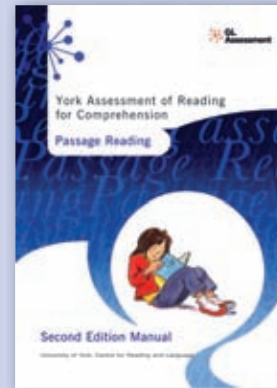

W856672**£ 185.00*****TEACCH Transition Assessment Profile (TTAP)**

Extends the assessment of the PEP-R (volume 1) to the adolescent and older age group in the moderate to severe range of learning difficulties. It uses the same scoring system as the PEP-R, focusing on emerging skills to facilitate educational planning.

- Emphasis is on evaluating functional skills from three areas of observation: direct observation, home and school work.

- Photocopiable test materials.

112 pages, large format, illustrated, spiral bound

W851067**£ 78.95****New!****York Assessment and Reading for Comprehension: Complete Set (YARC)**

This diagnostic reading assessment tool provides an in-depth analysis of reading and comprehension skills for children aged 4-16 years. It identifies specific problems with word recognition, reading fluency or reading comprehension and informs on the best and most appropriate interventions to support the individual.

- Can be used to assess and monitor ongoing pupil progression.
- Assess EAL pupils and those requiring extra time in examinations
- Informs educational planning and benchmarks against the national average
- Ideal tool to evidence the impact of Premium Pupil Spend
- Provides standard age scores, age equivalent scores and percentile ranks for comprehension, rate and fluency.
- Administration time: 20-30 minutes.
- Developed by a team of reading experts from the centre for Reading and Language at the University of York.

The YARC diagnostic test is split into three parts: Early Years, Primary and Secondary tools.

W856453 Primary & Early Years**£ 247.50*****W856803 Secondary****£ 234.95*****Symbolic Play Test**

2nd Edition of this popular standardised assessment that uses structured observation of play to analyse early skills required for language development. The tool provides an objective indication of a young child's level of early concept formation and symbolisation – abilities that precede and develop alongside expressive and receptive language.

Four sets of miniature objects are presented in a set order, in different situations, enabling the facilitator to observe if the child relates to them appropriately. Objects are purposefully chosen and can lend themselves to a variety of interrelationships. The scoring system is based on the number of meaningful responses and connections the child is able to make. The outcomes of this test can be used to plan further appropriate interventions.

For ages 1-3 years

Duration: 10-15 minutes

Contents: manual, toys and 25 record forms.

W852158 Symbolic Play Test**£ 315.00*****W852159 Additional pack of 25 SPT record forms****£ 39.95***

Dorset Assessment of Syntactic Structures (DASS)

Based on the STASS assessment tool, the DASS has been drawn to appeal to older age groups, in full colour A5 format and presented in a display book. Effectively trialled with adults and adolescents with learning disabilities. Elicits grammatical structures at Clause, Phrase and Word level on the LARSP chart. Reported as user friendly and in addition to assessing linguistic competence, during assessments there was noted improvement in attention, responsiveness and elicitation of connected speech. Includes manual and photocopiable score sheets. For 11 years+.

W856271

£ 55.00 zero rated

South Tyneside Assessment of Syntactic Structures (STASS 2)

A rapid assessment used to highlight possible areas of difficulty within a child's expressive language. It comes in a laminated booklet form with 32 coloured pictures which are presented to the child with 1, or occasionally 2, questions. Each question is designed to elicit one or more grammatical structures. Age range: 3 to 7 years.

The Oral & Nasal Professional Listener

This tool provides direct high-quality auditory feedback, simultaneous amplification of speech nasality and amplification of clients' speech for two people simultaneously. Unlike other devices, this amplifies all nasal sounds, allowing the client to HEAR the differences between nasal and oral productions. Particularly effective when working on the elimination of nasal emission or hypernasality due to abnormal articulation or velopharyngeal mislearning. Simple funnel attachment amplifies speech, ideal for targeting articulation skills and improving phonological awareness. Increases client's attention, focusing on auditory stimuli with options of using photo cues for correct sound production. Includes soft ear tips for comfort, 20 feet of replaceable tubing, speech funnel, 20 photo cues and manual in a protective carrying case (37Wx30Dx10cmD). Latex free.

New!

LinguSystems Articulation Test (LAT)

Assesses individuals aged 3-21 who have abnormal articulation patterns. Screens for apraxia of speech, assesses consonant sounds and can be used to monitor progress. Easy to administer, score and interpret, yet provides a thorough examination of all sounds/blends by presenting several sounds more than once in the same position. All positions at the word level are tested. Picture plates assess every consonant sound in words, including initial blends. The vocalic /r/ is tested in multiple contexts. 5 parts:

- Stimulability Assessment - administered after an incorrect production, determines if participant is able to imitate a correct production.
- Intelligibility Rating Scale - based on the type/frequency of errors in a picture description task. Helps determine the type/severity of a speech-sound disorder.
- Articulation Summary - based on the type of speech/sound errors at the single-word level, allowing a breakdown of speech-sound errors by substitution, omission, or distortion.
- Apraxia Screening Summary - based on the sequential production of 12 multisyllabic words. Inconsistent repetition of a multisyllabic word may require follow-up tests for Apraxia of Speech.
- Speech Sound Error Analysis - allows analysis of speech errors by word location/type/stimulability.

Contains: Manual, Picture stimuli book and 20 test forms.

Oral Motor Facewear Pack - 20 Double Sided Props

A static version of the animated 3D coasters! This pack has 20 double sided mats with 40 faces. Great value - get creative with these new "tools". That focus on mouth shapes and movements. How will you use yours?

W856688

£ 4.99*

Designed for adults but we think these are interesting items that are transferrable to make oral therapy fun. However adult supervision is essential - they are not toys.

All New!

Face Fun Oral Motor Character Pack - Set of 20

Therapy Fun! Let clients pick a character that they want to be "framed" as! Position in front of a mirror and start chosen oral motor exercises....or perhaps you'd prefer to stick these on your therapy mirrors in a row so clients move from character to character? However you choose to utilise these fun items, we are sure that they will make SLT sessions a little bit different...10 double sided sheets, 20 characters. Card. Unroll and flatten prior to use. 29.5Wx42cmH. Face hole approx: 14.5Wx19cmH.

W856684

£ 6.99*

W856685

Face Fun Oral Motor Pack 2 - Set of 6

6 fun masks for clients to use to "be someone else" whilst the lower part of the face is left clear for practicing oral motor exercises in front of a therapy mirror. With glasses-type arms, but smaller clients may benefit from attaching elastic or thread through a punched hole for fitting comfortably. The eye areas have 9 holes for vision, but these could be cut out to make seeing easier. We know creative SLT's will find other ways to adapt and use these fun props to add a new dimension to sessions! Card. Sizes vary but approx 19cmWx18cmH

£ 4.99*

Designed for adults but we think these are interesting items that are transferrable to make oral therapy fun, however adult supervision is essential - they are not toys.

Webber® Photo Cards Oral-Motor - 75 Cards

This Oral-Motor set was developed to help children with feeding and swallowing difficulties, neurological deficits, developmental disorders, SPD etc. Each card has clear photographs showing how to perform exercises for the Jaw, Lips, Cheeks and Tongue with simple written instructions underneath. Includes 50 Basic and 25 Advanced Exercise Cards, game ideas and storage tin.

W854466

£ 35.00*

Photo Cues Flip Book and DVD

This resource provides visual and auditory models to learn correct place, manner and voicing for speech sound production. Each card has one side for the client, featuring a photo and picture symbol re-inforcer. The flip side for clinicians shows photo and name of sound, with tips and techniques to help guide through sound production. Five sound sections are tabbed and color-coded by place of production. Begins with sounds made at the front of the mouth and progresses to sounds made toward the back of the mouth. Includes sounds for: P, B, M, W, F, V, TH (voiced and voiceless), T, D, N, S, Z, L, SH, ZH ("treasure"), CH, J, R, Y, K, and G. Includes a DVD for students presenting sound productions in isolation and in the initial and final positions of words. Recommended for ages 4+.

Mytopia: Big Compendium of Oral Motor & Airflow Control Games

This compendium is packed full of specialised, fun and varied resources for everyday SLT sessions and focused myofunctional therapy! Beautifully illustrated characters motivate and encourage children to engage with oral motor exercises whilst playing meaningful games. Features:

- 5 suction games: Glitter Fish; Colourful Giraffe; Where is the Train Going?; Snake Skin; Colourful Snail Shell.
- 5 mouth coordination and airflow control games: Who's Dangling on the Line?; Flying Bee; Mumo Mix; Car Race; Hopping Frog.
- Contents: 54 oral motor activity cards; 1 honeycomb; 1 Aquarium; 2 plastic frogs; 26 counters; car; wool balls; table tennis ball; marbles; 4 fishing lines & straws.

Specific oral motor movements and sequences are practiced and repeated, developing self-awareness whilst simultaneously strengthening tongue, lip and cheek muscles. Oral motor activity cards are numbered and linked to specific exercises to vary use. Easily and quickly gradable to ability level or need. Incorporates blowing activities to practice directing and controlling breath flow.

Sucking games are included to develop lip closure, elevation of the front and sides of the tongue to create a groove and improve the speech sounds "s" and "sh". Also useful for strengthening oral-facial muscles of children who breathe through their mouth rather than the nose, or push their tongue forward against incisors when swallowing. Note: sucking exercises are (unsuitable for those who speak on an in-breath).

Game boards have a protective layer to allow wiping with a damp cloth. Small parts - supervise use at all times. For 5 years+. Most suitable for primary school children.

W856549

£ 119.95*

Oral motor devices and therapeutic chewing tools are not toys. Use of these items should be supervised by an adult or therapist at all times. Product should be checked regularly and must be replaced at first sign of wear

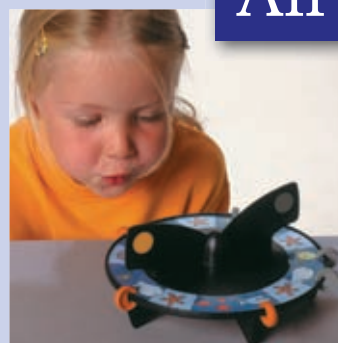

Oral Motor Blowing Games - Set of 4

Super set of four fun blowing games that enable practice of airflow control. Select a board according to therapeutic goal: Football (strength of airflow), Pirate (Control), Pathway (Direction) and fill with water (Strength, Control and Direction) and use with the included 8 lightweight balls. For 3-8 years. Plastic Base: 31cmLx5.5cmxH22cmW.

W856432

£ 25.00*

All New!

Turbino Blowing Game

Practice breath control with this spinning skill game. Blow on the sails to turn and stop the propeller (no touching allowed!) on a picture. Once "captured", place a marker and get a different one. The first player to get them all, wins! Two difficulty levels. We think therapists could get creative with this device and personalise with their own images to engage users, such as trains, cartoon characters etc. For 2 players, small parts, for 3 years+.

W856460

£ 17.95*

Wet My Whistle™ Musical Straws - Set of 4

These musical straws are fun and ingenious. They work like a slide whistle, but when children have finished making music, they simply pop their fingertip over the hole to sip the liquid. Material: food grade polypropylene. Size: 1 x 22x1cm (approx).

W856570

£ 6.50*

Blow Lotto Game

Strengthen oral motor skills and breathing control. Blow the ball around the track without it falling off onto brightly coloured symbols! Includes a plastic frame, ball, game board with animal pictures on both sides, game board with a track on both sides, 4 lotto boards with animal pictures on both sides and 36 playing chips.

W820487

£ 30.00*

Blow Football Game

Use this two player game to practice breath control whilst having a fun football game! Its old fashioned style will appeal to adults, whilst the football theme is great for children too. Blow and puff and score more goals than your opponent.

W854898

£ 7.00*

Chewstix® Orange Flavoured Chew
Chewable hand fidgets for those who crave sensory input. Textures of this product were designed by therapists to simulate the constantly changing textures of food and assist those who have sensory issues when certain textures are placed in their mouth. This is an oral motor device and not a toy, and must be supervised by an adult or therapist at all times. Replace at first signs of wear. Choose from orange or chocolate flavour. BP, latex and phthalate free material. Dishwasher safe.

W821655	Orange Multi-texture Chewable Fidget	£ 9.95*

W821657	A's and Z's	£ 12.95*

Neckerchew® Reversible Scarves with Chew Corner
These fashionable scarves are attractive yet practical tools for those with chewing or drooling needs. They protect clothing, are easily accessible and have a firmly stitched, chewable corner with raised dots for added tactile input. Neckerchews are easily removable, adjustable in 2 positions via a popper but stay firmly attached, offering a different solution to other chewing aids that are often easily dropped and cannot be picked up and re-used. Reversible, with different colours to compliment clothing. Medium is adjustable between 38 and 42cm, suitable for young adults and children. Not suitable for aggressive chewers. Washable at 40°.

Introducing...Ark Therapeutic's BrickStick™ Range **New!**

Brick Chewing Bracelets
Brick Sticks™ chew wear look great, with wide appeal! These handy chewing aids enable self-management during stressful situations, providing a safe alternative to biting, sucking, nibbling on clothing, fingers, pencils etc.

The pendant is long enough to reach the back molars and has varied tactile input - large bumps to one side and little ones on the reverse. Size: approx 6.4cmLx1.6cmWx1.3cmD. Breakaway neck cord measures approx 91cmL and can be shortened easily.

Brick Stick™ wrist accessories have a clever twist-on/off design, eliminating the need for clasps. These can be used as fine motor fiddle tools - flex, twist, bend and feel the bumps!

Outer diameter: 7.7cmWx1cmD, inner diameter: 5.3cmW. 3 resistancy levels: Red, soft for mild chewing. Lime Green, Xtra Tough for mild/moderate chewing. Blue, Xtra Xtra Tough is the firmest for avid chewing, but although robust, no chew is indestructible - some individuals, particularly those with aggressive biting/chewing needs may damage the tools. Please supervise use and replace when necessary. Material is medical grade and is lead, phthalate, PVC, BPA, and latex-free. Small parts, for 5 years+. Supervise use at all times.

Z-Vibe® and Z-Grabber™ Textured Tips

CREATED BY AN SLP

These textured tips for the Z-Grabber™ and Z-Vibe® are designed to provide tactile awareness and oral sensation. Stimulate the gums, palate, cheek and tongue via stroking and applying pressure or to provide targeted cues during oral motor therapy. Can increase oral awareness for those with hyposensitivities, or decrease oral defensiveness and food aversions for those with hypersensitivities.

- The Probe Tip - Rectangular shaped end, 3 tactile surfaces: bumpy, striated and smooth to provide a varied sensory experience.
- The Mini Probe Tip - Smaller than the probe, for babies and toddlers up to 2½ years (depending on the size of the oral cavity). Rectangular shaped end with 3 surfaces: bumpy, striated and smooth to provide a varied sensory experience.
- The Preefer Tip - Rounded end with long striations around the circumference, useful when a 'rolling action' is required. (Approx 6x1cm)
- Fine Tips (set of 2) - Narrows down to a thin tip to about pencil-size in diameter, useful for isolating a specific spot and directing the articulators during speech or feeding therapy. Includes one hard and one soft tip (the softer one for those with a strong bite reflex) (Approx 6x1cm)

Lead, phthalate, PVC, BPA and latex free. Dishwasher safe.

All these products are therapeutic tools and use must be supervised at all times

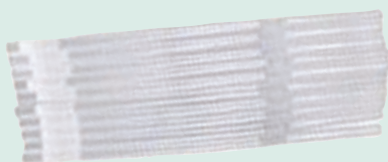

All New!

**Sip & Slide™ Whistle Spoon**

Happy Mealtimes! This fun spoon whistle is a rather odd combination, however, its working those oral motor muscles as they make musical notes, satisfies children who struggle to sit at the table to eat and are sensory seekers or enjoy auditory sensory input. Let them blow their whistle while food is prepared. If it helps them to engage with mealtimes when all else fails, who are we to argue? Size: Approx 2.5x1.4x16cm.

W856568**£ 8.99*****Slinky Drinks™ Straws (set of 3)**

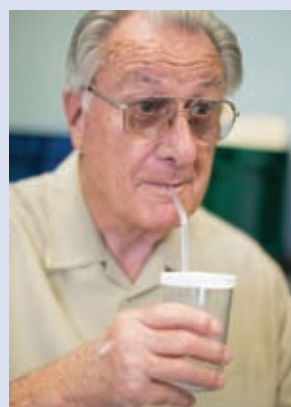

Bendy flexible gummy worm straws make supping liquids or creating bubbles have an extra multi-sensory dimension! Use for both sucking and blowing oral motor exercises, these are simply great tools to engage youngsters at home or in clinical therapy sessions. Set of 3. Material: rubber silicone, Size: 1x21x1.2cm.

W856567**£ 7.99*****One-Way Flow Easy Drink Straws - Set of 10**

These One-Way Straws have an inbuilt valve controlling fluid flow and preventing it emptying back into the tumbler. Because liquid remains at the top, less air is ingested and therefore less effort is required for each sip. Set of 10.

W856622**£ 12.95 VAT Relief****One-Way Select-Flow Straw Valves - Set of 3**

This set of 3 Select-Flow Valves make drinking easier for individuals with oral motor difficulties. The direction of the fluid is controlled, it goes up the straw but it cannot flow back down, subsequently requiring less effort to drink. This design also reduces the amount of air ingested, therefore users experience reduced coughing or choking whilst consuming more fluids. If a restricted flow isn't necessary, simply trim the tapered end with a pair of scissors to increase flow. 4.4cmL. For thin liquids (water, milk, juice without pulp, etc) but not carbonated beverages. Compatible with most standard 0.6cmDia straws, but best used with the Sip-Tip® to allow fluid to be "helped" up the straw for the initial sip. Material: medical grade, BPA, PVC, lead, phthalate and latex free. Dishwasher safe. Small parts, for 3yrs+. Supervise use at all times.

W856624**£ 7.95 VAT Relief**

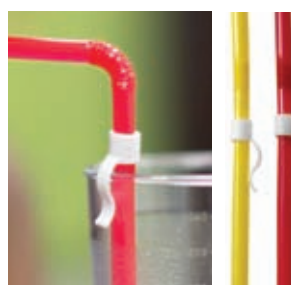

All New!

**Sip-Tip®
Drinking
Tumbler
and Lid****Sip-Tip® Drinking Tumbler, Lid & Straw Set**

Designed to make drinking easier for those who have difficulties generating and maintaining suction. Inbuilt valves in each straw controls fluid flow, preventing it emptying back into the tumbler. Because liquid remains at the top, less air is ingested so less effort is required for each sip. Help, in needed by "pumping" the fluid up the straw via the flexible lid - simply cover the vent hole with a finger, press down several times until liquid reaches the desired height. Ark Therapeutic state that Sip-Tip® users tend to experience less coughing and choking whilst consuming more fluids. Features: Snap on lid to minimise spillage and graduated marks to monitor fluid intake. A Lip Blok® prevents straw biting, helps decrease tongue protrusion, promoting correct tongue and lip positioning. Holds 227ml. Measures approximately 11.4cmH tall with 5.1cmDia (base), 7.6cmDia (top). For thin uncarbonated beverages (water, milk, juice without pulp, etc). Compatible with most standard 0.6cmDia straws. Material: medical grade, BPA, PVC, lead, phthalate and latex free. Dishwasher safe. Small parts - supervise use at all times.

W856628**£ 24.95 VAT Relief****Lip Blok® Straw
Positions****Lip Blok® Straw Positioners**

Lip Blok® straw positioners help discourage tongue thrusting, promote tongue retraction and correct overall tongue positioning. These oral motor tools also discourage straw biting and prevent users from pushing straws too far into the mouth. Press the chosen Lip Blok® into the top of a straw and then drink. For best results start with the longest, progress to the medium-sized and then the shortest, helping users put less and less straw into their mouths. When the shortest is used, fluid is deposited into the front of the mouth where it is easier to manage and less likely to cause coughing or aspiration. Shorter lengths facilitate more intense oral motor exercise, the tongue retracts more, the lips seal better and cheeks have more tension. Compatible with most regular straws (0.6cm). Material: medical grade, BPA, PVC, lead, phthalate and latex free. Use of these products should be supervised at all times. Small parts, for 3yrs+. Supervise use at all times. Dishwasher safe (note: drying cycle is too hot, so ensure this isn't used), hand wash or boil (just for a few minutes).

W856625 Yellow (1.9cmL)**£ 4.95 VAT Relief****W856626 Blue (1.27cmL)****£ 4.95 VAT Relief****W856627 Turquoise (0.64cmL)****£ 4.95 VAT Relief****Essential Straw Secure Clip - Set of 10**

Brilliant little drinking aids! These clips secure straws firmly to the sides of drinking vessels, preventing the frustrating "chase the straw" scenario. Compatible with most standard 0.6cmDia straws. Material: medical grade, BPA, PVC, lead, phthalate and latex free. Dishwasher safe. Small parts - for 3 yrs+. Supervise use at all times.

A magical way to eat meals

Magical Garden Plate and Cutlery Set

Make mealtimes magical! Each utensil is based on a garden tool, rake, hoe and shovel. Perched on each handle are three fairies, Allo, Willow and Charlie, ready to share in new food adventures amongst the ivy, butterfly bushes and pumpkin vines! Segmented areas enable food to be separated if required, the design helps with motor planning (pushing food onto the spoon using the grooves on the plate), raised features create an added tactile dimension and the visually interesting placemats are sure to capture the imagination. The plate is dishwasher and microwave safe. No Lead, No Bisphenol A (BPA), No PVC and No Phthalates. Metal utensils may scratch and mar plate.

Strategies for a Successful Mealtime - Book

Mealtimes are often daily challenges for those with ASD and related disorders, individuals, their families and carers. This book addresses difficulties such as avoiding foods, textures, temperatures, flavours etc. It breaks down oral movement components, patterns and feeding development and looks at environment, equipment, treatments and visual aids. Presents a sensory motor approach with purposeful oral sensory diet activities to develop more typical motor response of the oral structures to sensory input.

- Managing Emotions
- Listening & Empathy
- Social Skills
- Divorce, Loss & Change
- Trauma , Loss & Grief
- Anger Management
- Anxiety
- Depression
- Self-Harm
- Building Self-Esteem

Integrative Child Temperament Inventory (ICTI) - Book and Folder Set

Early identification of at-risk behaviour patterns enables clinicians to plan an early-onset effective prevention approach. This tool assesses childhood temperament and can be applied as a screening tool for 2 years+. Uses the strongest research to date and is the first standardised and extensively normed assessment of its kind in the UK. Response booklet consists of 30 simple sentences concerning behaviour. Assessment scores are based on perceived behaviour frequency and reveal where a child stands in relation to the sample, taking age and gender into

account. Includes guidance on the clinical significance of the results, combination of scales and appropriate interventions.

W856118

£ 150.00*

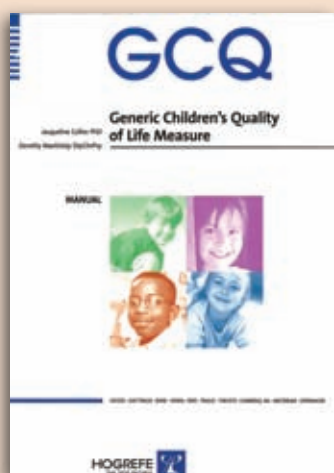

Social Emotional Development Age Level (SEDAL) - Booklet and Forms

A simple to administer behavioural assessment scale delivering crucial information to support ongoing positive growth and development. Establishes social-emotional progress in children and adults (developmental age range of 0-14 years) and effective for everyone including those adults with intellectual disabilities or delayed development. Measures and calculates a developmental age for the Social Domain (initiating contact, social independence, moral development, impulse control, self-awareness, social assessment skills) and the Emotional Domain (self-image, emotional independence, sense of reality,

moral development, regulation of emotions, fears). Scoring is based on response to behaviours deemed either "characteristic" or "non-characteristic". Responses can be applied to the scoring programme or assessed manually.

W856117

£ 289.00*

GCQ Generic Children's Quality of Life Measure - Book and Sheets

Measures life quality of children aged 6-14 years, both with specific health and/or social difficulties and those without. It focuses on family, peer relationships and school. The assessment tool is not problem specific, symptom oriented or disease-focused. Suitable for when a child presents as having life difficulties but cannot express them or when there is concern about how an illness, disability or therapy is affecting them. It uses child-friendly words, focusing on factors reported by children as the most important life factors. Girls and boys are assessed separately with different story stimuli. Reading level: 8 years. In the first section, the child responds to topics by choosing a character they feel they are

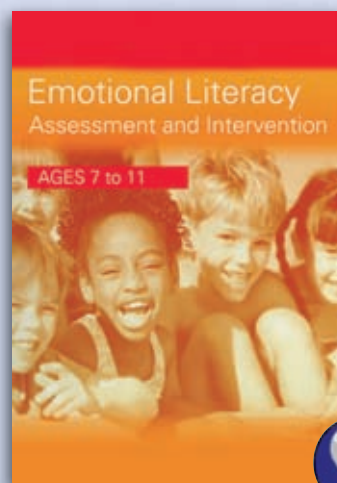

most like and in the second, who they would most like to be. These two responses form a basis for perceived and preferred self-scores and any discrepancies indicates the perception of his/her quality of life.

Emotional Literacy Standardised Assessment

Non Returnable

An untimed standardised assessment to measure emotional literacy and provide ideas for intervention and follow up activities where necessary. Five key areas addressed in the Social and Emotional Aspects of Learning (SEAL) curriculum including Self-awareness, Self-regulation, Motivation, Empathy, Social skills. The measures help address the social, emotional and behavioural issues related to a pupil's emotional literacy, providing teachers, SENCOs and educational psychologists with the diagnostic tools to understand and develop a pupil's emotional literacy. The interactive CD-ROM has full audio support, user-friendly age-appropriate onscreen instructions and switch accessibility meaning that checklists can be accessed by those who find paper-based assessments problematic ensuring those with additional needs are fully supported. Includes: simple, clear printable score profiles, optional teacher, pupil, and parent questionnaires, photocopyable and re-usable worksheets, age-appropriate activities that save time and effort when planning intervention and re-assessment methods to monitor progress and the impact of intervention. Choose from Primary or Secondary versions.

Draw on your Relationships/Emotions - Books

Superb non-verbal tools designed for professionals to empower clients to improve life quality. Structured series of 'easy-to-do' photocopiable picture exercises aid expression, communication, help manage emotion and ease the process of talking whilst prompting clarity of thought, positive actions and bringing seemingly unmanageable problems into perspective. Rehearse other ways of functioning by trying out alternatives safely on paper. Guidance is provided on using exercises and developing themes when drawings open up a rich channel of communication. Activities are for individual use or for two or more people to do together. Choose from either Emotions or Relationships.

W851381	Draw on Your Emotions	£ 39.95
W854130	Draw on Your Relationships	£ 41.95

Interpersonal Communication Programme

This 13 session programme aims to improve the personal skills of self-expression and listening. It covers awareness of communication issues, the two way process between speaker and listener, body language, the skills of active listening and behaviours that hinder or block personal communication.

W855961 £ 27.95

Self-Awareness Programme

Help young people be clear about personal goals, how to achieve these and develop self-identity. A 13 session plan covers past achievements, explores behaviour, values, attitudes and feelings, encourages participants to see themselves as others see them, think about the type of people they want to be, examine choices to make a successful life and create long-term goals.

W855962 £ 27.95

Groups Programme

Great for co-ordinators who are aiming to create a unified group of individuals who need to work together to complete activities. The 12 sessions cover leadership strengths and weaknesses, profiling group roles, consensus decision making and solving existing problems.

W855963 £ 27.95

Feelings Programme

This emotional literacy programme covers awareness of feelings, taking responsibility for them, developing effective coping strategies. 13 session plans cover identification of moods and feelings, vocabulary to describe these, examining ways that feelings are handled, developing coping strategies and anger management.

W655965 £ 27.95

Skills of Friendship Programme

Develop interpersonal skills that enable participation in successful and positive relationships. 13 sessions cover understanding empathy, examining the role of trust in relationships, the importance of people feeling valued and the skill of listening.

W855966 £ 27.95

Nature of Friendship Programme

12 sessions cover understanding what friendship is and the qualities and behaviours that promote good relations between people. Includes reflection of past relationships, deciding on what is helpful/unhelpful, identifying & evaluating behaviours, personal qualities, attitudes & characteristics that can help or hinder relationships.

W855967 £ 27.95

Assertiveness Programme

Assertiveness skills can improve chances of getting what is needed, reduce frustration, lead to open, positive relationships and increase feelings of self-worth. 13 sessions cover topics including: behaviour and reactions; contrast between aggressive, passive and assertive responses; consequences of communication and behaviour; practicing verbal and non-verbal skills; assessment of types of assertion; identifying people with whom it is difficult to be assertive and drawing attention to how it can be hard to say "no".

W855964 £ 27.95

Boyfriends, Girlfriends Programme

14 session programme covers low risk exercises which direct attention to the qualities one looks for in a partner, investigating stereotyped attitudes, identifying behaviours, attitudes and personal qualities that contribute positively/negatively to relationships, identifies commonalities of difficulties that occur.

W855969 £ 28.95

Self-Esteem Programme

15 sessions cover recognition of personal strengths, positive personal qualities, developing open interaction and trust, learning social skills, handling positive and negative put-downs, encouraging reflection, discussion and developing insight into behaviour.

W855972 £ 27.95

Stress Programme

14 sessions look at the nature, causes and effects of stress and how to handle it. Content explores prevention via a healthy lifestyle, assertion, effective time management, the importance of talking to others, developing relaxation techniques and identifying causes.

W855971 £ 27.95

Decision Making Programme

13 sessions look at developing skills for positive decision making. Covers the importance of effective decisions, evaluating different styles of taking action, gathering information, clarifying values, generating alternative solutions, making decisions on smoking, alcohol and drugs and helping to clarify choices of career and/or subject options.

W855968 £ 27.95

Conflict Programme

12 session programme covering a range of techniques to develop skills of conflict management. It reflects on personal experience, the extent of conflict worldwide, attitudes and responses, identifying behaviours that can escalate or diffuse conflict, skills of negotiation, exploring ways of reducing existing conflict and practical prevention methods.

The Blobs Training Manual - Book

This book guides facilitators on how to use the Blobs, with lots of different activities featured for use with groups or individual clients. Using these tools is a journey as participants often interpret the visual scenarios in a way that is very relevant to them. This manual has lots of different activities such as blob trees, jigsaws, reflection activities and clear descriptions are given of what each can be used for, and how. Explains how to create a setting that is conducive to working with the Blobs with an included CDROM with downloadable PDF's of worksheets.

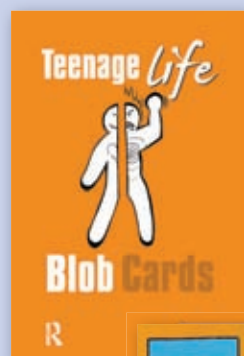

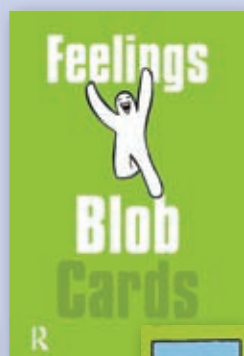

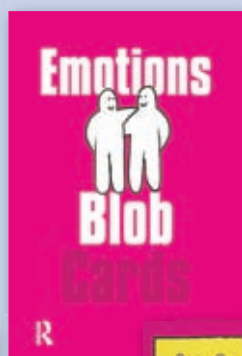

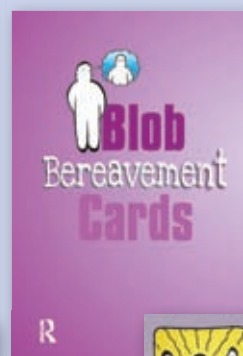

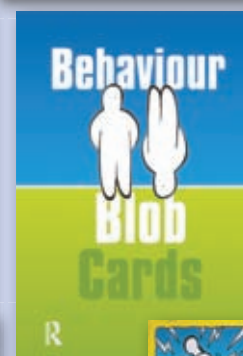

W856478**£ 36.99****Blob School - Book**

47 activities featuring Blobs cover key aspects of pupil life. Topics include assembly, bullying, changes, choir, classroom, working with computers, disco, exams, first day, friendships, groupwork, holidays, homework, lessons, meals, parents evenings, playground, prayer, studying etc. These can be used to prompt class or group discussion or used in 1-1 sessions exploring feelings and highlighting potential problems that may require support or guidance. Photocopiable.

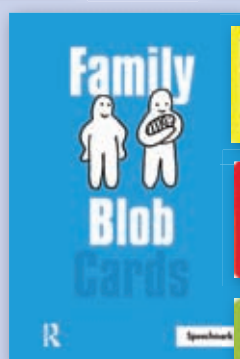

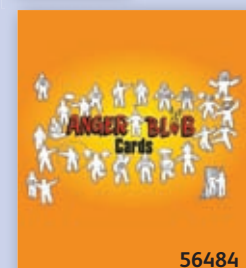

W856482**£ 29.99****Introducing the Blobs**

The Blobs were created to enable and empower those who struggle with words, but want to share how they feel. They are clear and simple black and white line illustrations with no words, based on feelings and body language. These visual tools can be used to prompt discussion or simply pointed at to convey that these have struck a chord. Different from other emotional literacy tools, Blobs are neither male nor female, young nor old and devoid of culture. They don't guide on what should, shouldn't or ought to be done, or depict a problem to be solved or a message to be agreed, they just show how people may feel. Blobs have been used for over twenty years with small or large groups, in 1-1 sessions and individually, by different professions and are transferrable to learning and therapy settings.

All New!

**56479****56485****56486****56487****56488****The Blob Cards - Sets of 48**

Each boxed 48 Card Pack features a specific life experience, such as bereavement, family, teenage life, behaviour, anger etc. These versatile resources enable adults and children in groups or 1-1 sessions to develop self-management skills and explore their feelings and reactions to situations that occur, through choice or spontaneously. These can be used as both educational and therapeutic tools to begin the process of change and healing.

Ruby and the Rubbish Bin

...struggling with low self esteem, don't like themselves, believe something is wrong with them, have been deeply shamed, received excessive criticism, haven't been encouraged, let others treat them badly because they feel they deserve it, don't accept praise, feel defeated, unimportant, unwanted, unlovable, like they don't belong, bully because they feel worthless or feel worthless because they are bullied or think no-one wants to be their friend.

W850953 Guidebook & Storybook £ 33.95

W854831 Storybook £ 9.95

Stories for Troubled Children Collection - 19 Books

Huge set of 19 books! Includes all of the storybooks and guidebooks on this page (apart from Ruby and the Rubbish Bin) and also "Using Storytelling as a Therapeutic Tool with Children", which is overleaf on page 93.

W852519 £ 250.00

Live in Wonder - Book

This lovely journal is about empowering the self. It serves as a practical therapeutic tool to learn and reflect on life's lessons, emotions and decision-making at a pace and timescale chosen by the individual. Each double lined page has an inspiring, empowering quote and a thought provoking question for consideration alone or discussion with others. "Don't let yesterday use up too much of today", "Any regrets? How do they slow you down?". Personalise pages by writing, drawing, creating poetry or sticking things down.

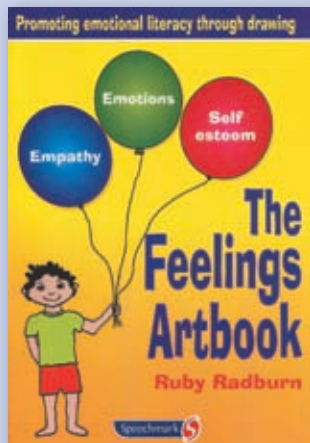

W856187 £ 8.95

The Feelings Artbook - Book

Many children enjoy drawing and these practical activities and worksheets use this activity to begin to explore emotional issues and develop emotional literacy. Three sections focus on "Self-esteem", "Emotions" and "Empathy". Activity instructions include a clear aim, suggested outline of how to conduct the activity and follow-on ideas. For parents, teachers, therapists and other professionals. Wire bound volume. Size: 29.5 x 21cm

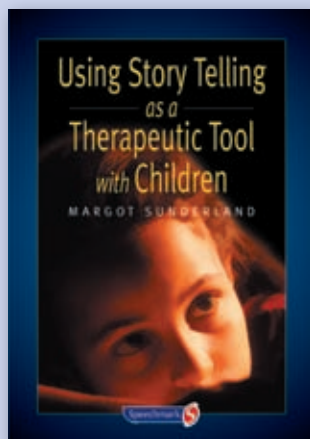

W853956 £ 36.95

Using Storytelling as a Therapeutic Tool with Children - Book

This manual explores the therapeutic value of story telling including its underpinning philosophy and psychology, how to use these with children and respond effectively when children tell stories. Covers such issues as: Why story telling is such a good way of helping children with their feelings; What resources may be needed in a story telling session; How to construct a therapeutic story for a child; What to do when children tell stories; Things to do and things to say when working with a child's story.

W852352 £ 17.95

The Men's Room - Journal

Draw weird food, dream up inventions, create superheroes, go on missions and more! This interactive resource has been created to inspire teenage boys to get creative! Fun activities with engaging illustrations based around themes such as aliens, robots, zombies and dragons. Thought-provoking facts and questions serve as a starting point for storytelling, therapy or learning - not only for use by individuals but also as a source of ideas for group activities. For ages 7-12. Lockable with 2 keys.

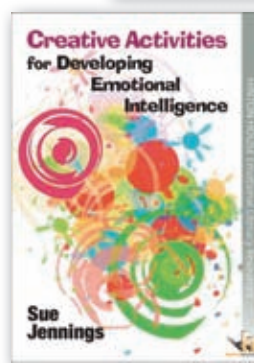

W856189 £ 10.95

Creative Activities for Developing Emotional Intelligence - Book

Art, drama, puppetry, storytelling and play activities to aid young people of all ages to understand and express emotion, particularly those who only express extremes of emotion, have difficulties self-regulating or understanding and processing. Based on the developmental model of emotional intelligence, with useful background information on attachment theory and the neuropsychology of emotion. Photocopiable worksheets, stories, games, useful reading etc and activities are flexible, requiring no previous experience. For professionals supporting young people.

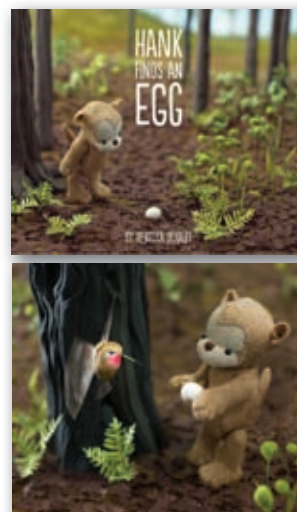

W856704 £ 24.99

Hank Finds an Egg - Book

A delightful, wordless story book, following the tale of an endearing bear who finds an egg, cares for it and returns it home safely. Pictures are poignant and expressive and can be used to prompt discussion, develop articulation, vocabulary and language or focus on the concepts of empathy, caring and emotion. Appealing to children or adults and the lack of text removes any frustration or distress caused by inability, difficulties or reluctance to read text or interpret the meaning of words.

W856198 £ 12.95

Carddies Sets

Choose a theme, open the box and bring characters to life by using the included colouring pencil crayons. Great de-personalisation tool, these can be used therapeutically to open up discussion regarding worries, difficulties or problems. Great for creative sessions - use paints, pastels, glitter, sand etc. Box size: 10x15.5x3cm. For 3 years+.

The Fairy Worry Plaque

Human worries grant wishes! They are collected by Fairyland to be ground down into magic dust via these log shaped plaques. Children press a hand into the indentation (glows red). They then think of the problem and when the fairies have heard it, it changes to green, showing that the worry has been transferred successfully. A great mechanism to instantly know when something is bothering a child who may require support. Access to online content. For indoor wall mounting. Hand indentation 15cmH. Requires 3xAA batteries (not included). Size: 27.5DIAx3cmD.

W856409

£ 22.95*

Fairy Toadstool Night Light

This lovely Toadstool House nightlight helps to create a magical space, looking great on or off! Touch the fairy door of the Toadstool to turn the soft glowing light on. Fairies switch it off after 30 minutes so humans don't have to remember to do it. Enables safe movement around rooms to view children without turning on extra light. No cables, requires 3xAA batteries (not included), so can be installed in any convenient indoor location. Size: 26.5x26x12.5cm.

W856410

£ 16.95*

Fairy Door and Writing Sets

Every Fairy longs for happy human home and in return provide magical jobs such as collecting teeth and providing payment, replying to notes, gifts and pictures with love and care. This magical set can be used in many ways but is ideal to encourage children to write down worries and problems and things they wish for, which in turn enables parents/carers or professionals to intervene and support when needed. Includes a magic key in a bottle, fairy door, stepping stones, Family/Fairy Lease agreement, notepad and a secret code to register fairy name on the Fairy Workplace Log. Suitable for indoor or outdoor use (requires varnish, not included). 12cmH. Small parts - for 3 years+.

Grab and Reach

A well-designed practical tool which is easy and effective to use, offering three methods of gripping items. "Standard Lock" – grip object then engage lock once a secure hold is achieved. "Grip and Hold" – set so as trigger is compressed, the jaws lock automatically – ideal for anyone who hasn't the dexterity to operate a latch and useful for getting a tighter hold on an item already held. "Fine Tune Grip" – jaws are lock half way so they have a smaller range of movement enabling tight grip and retrieval of items from tight spaces.

Augmentative & Alternative Communication Profile (AACP)

Assesses the skills and communicative competence of all AAC system users, not specific to a disorder, severity or setting. It identifies areas of strength, where more input is required to develop long/short term goals and used to monitor changing abilities to develop tailored interventions. Covers four key skill areas:

- Operational - using the system, accessing and transmitting information (Orientation/Awareness, Manipulation, Focused Use, Navigation, Programming & Use)
- Linguistic - receptive/expressive language, knowledge/use of the language code and ability to use both during conversation (Awareness, using Specific Meanings, Combining Words, Using Syntax & Morphology & Refined Language)
- Social - communication, including self-image, desire to communicate reciprocally (Behaviours, Regulatory Behaviours, Practiced Interaction, Social Awareness/Competence & Social Mastery)
- Strategic- knowledge of what can be communicated, how and developing compensatory strategies (Pre-Intentional/Reflexive, Intentional, Programmed Message Use, Appropriate Message Selection, Use & Strategic Mastery)

Working with clients who have Dementia, Learning Difficulties and have had a stroke, please turn to page 129 for PAL resources

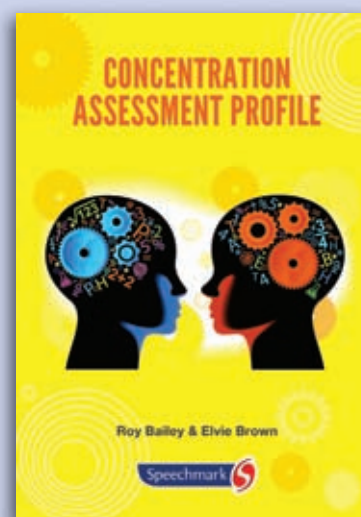

Location Learning Test (LLT)

The LLT helps diagnose Dementia, amnesia and mild memory deficits. Can be administered to those with Aphasia as it does not rely on verbal responses. Evaluates the ability to learn spatial locations of everyday objects and offers a measure of learning through repeated testing and a measure of delayed recall. By combining these, clinicians can identify those likely to be suffering with learning and/or difficulty retaining new spatial information. The delayed recall trial is useful for identifying dementia patients from the normal aging process. By purchasing this resource, you are affirming that you are a registered healthcare professional and appropriately trained to carry out this clinical intervention. For 18 - 96 years. Administration time: 20-30 minutes. Includes picture cards, scoring forms and carry box.

Just for Adults Word Relationships - Book

Target word relationships and improve language processes associated with flexible expression. These activities for adults with neurocognitive disorders use carefully-chosen stimuli and a steady progression in difficulty. Easy-to-use activities help clients expand expression and manipulate words by associating words and concepts in the areas of "opposites", "synonyms", "multiple-meaning words", "analogies". Task formats include multiple choice, selecting from a word list, giving one-word verbal and written answers and sentence completion.

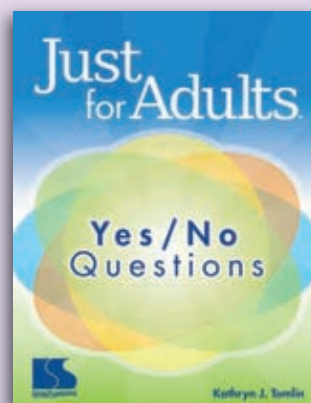

W855594 £ 15.00

Just for Adults Following Directions - Book

Improve direction and target the underlying processes of language comprehension and reasoning. These activities for adults are carefully designed to present complex directions with varied content and formats. Lesson content accommodates limited language abilities of clients with neurological impairments. Skills trained in early activities are reinforced and developed in later tasks. Clients engage by marking the correct answer, physically following commands and completing simple drawings.

W855595 £ 15.00

Just for Adults Yes/No Questions - Book

Increase accuracy answering yes/no questions with 430 gradeable activities. Includes short questions (e.g., Can a chair walk?), object questions (e.g., Are boxes used when packing items?), topic questions about safety, food, occupations, etc (e.g., Does a waiter change tires for customers?), two-item comparisons (e.g., Is a cat older than a kitten?), pictures with questions, before and after questions (e.g., Do you set the alarm after you get up?), one and two sentence statements with questions.

W855596 £ 15.00

Attention - CARDS: Cognition, Attention and Recall Drill Set

Use a simple deck of playing cards to target very specific attention skills! 50 enjoyable activities develop Sustained Attention (working on a particular task for an extended time), Selective Attention (responding to a stimulus in the presence of competing stimuli), Alternating Attention (appropriately changing attention from one thing to another) and Divided Attention (multi-tasking or processing multiple stimuli). The familiarity of cards is reassuring, whilst the activities offer challenge and pace. Easily gradeable. Age 15 - Adult.

W855360 £ 18.95

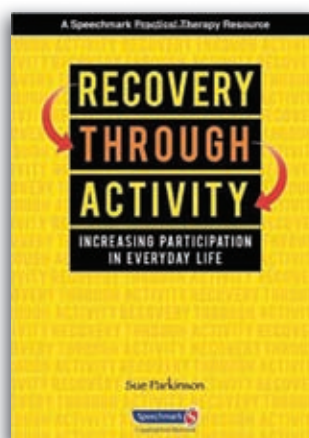

Memory - CARDS: Cognition, Attention and Recall Drill Set

These 40 engaging playing-card activities are enjoyable but specifically target four types of memory; Short Term (recalling immediate information/storing for future processing), Declarative Long Term (retrieving stored information such as facts, places, etc), Procedural Long Term (recall learned routines through repetition) and Prospective Long Term (doing something at the correct time). Clients recall and follow instructions whilst simultaneously exercising auditory, visual memory skills and fine motor skills. Offers numerous ways to grade difficulty level.

W855361 £ 18.95

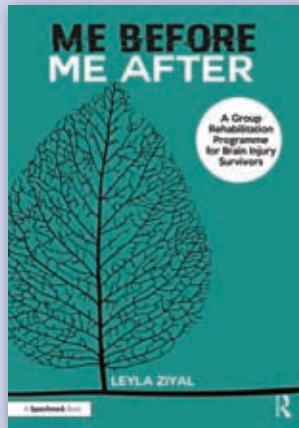

Turn to page 142 for a pack of cards to go with these great resources

Recovery Through Activity - Book

This handbook enables service users to recognise the long-term benefits of occupational participation by exploring the value of activities; provides OTs with a tool to support the use of their core skills; provides comprehensive evidence regarding the value of activity along with a wealth of resources to support occupation focused interventions; helps refocus the practice of OT in mental health on occupation; and supports practitioners to engage in their core skills, enhancing the quality of service user care in mental health. For OT practitioners and students as well as managers seeking to introduce time-limited, occupation-focused interventions into clinical pathways. Underpinned by the MOHO.

£ 39.95*

W856709 Black

£ 39.95*

Jamar® Dexterity Peg Board Test

Measures two types of activities – one for gross movement of hands, fingers and arms, the other involving fingertip dexterity. Can be used bilaterally or unilaterally. Includes 55 pins, 45 washers, 25 collars, manual, activity instructions, quick reference guide, normative data and 25 record blanks. Requires a stopwatch (not included). Supervise use – small parts.

W856294 £ 84.95*

W856295 Replacement pegs for 56294 £ 46.95*

W856296 Record Forms for 56294 £ 34.95*

Jamar® Dexterity Finger Test

Evaluates rapid manipulation of small parts. Useful for fine motor co-ordination training. Self-contained 28 x 14cm board. Has a shallow well for 2.5cm long pins and 100 holes that hold 3 pins each. Includes examiner's manual with norms.

W856299 £ 84.95*

W856300 Replacement pegs for 56299 £ 32.95*

Jamar® Dexterity Grooved Peg Board

A challenging manipulative dexterity test that requires more complex cognitive and visual motor co-ordination than most pegboards. Features 25 holes with randomly positioned slots. Different shaped pegs must be rotated for correct insertion. Great for rehabilitation wards. Supervise use – small parts.

W856297 £ 64.95*

W856298 Replacement pegs for 56297 - Set of 30 £ 23.95*

Balancing Seesaw

A table-top balancing game. Roll the die and place a corresponding shape onto the oval plate, without the shapes falling off. Tests balance, dexterity, fine motor skills and hand-eye co-ordination. Difficulty level can be adjusted by using the dome base flat-side uppermost with the central peg or downwards without the peg. For 3 years+. Supervise use - small parts. Size: oval plate 18 x 10cm; shapes 1.5cmW; die 1.5 x 1.5 x 1.5cm

W855747 £ 7.95*

Rolyan Semi-Circular Peg Board

A versatile resource for rehabilitation, particularly for those with neurological impairment or orthopaedic injury. Facilitates repetitive activities to improve range of movement, muscle strength, pincer grip and hand eye coordination or can be used to assess visual field difficulties. Enables grading - different degrees of elevation, reach and stretch over 3 tiers, 43 varying diameter pegs (6.4mm, 1.3cm & 1.6mm) and each diameter comes in two lengths (2.5 & 9.5cm). Use bilaterally or unilaterally. Durable, easy to clean plastic. Size: 66x36x5cmH. Supervise use - small parts.

W856287 £ 235.00*

Jamar® 9-Hole Peg Test

Great for non-standardised assessments of fine motor functioning, visual difficulties and developing co-ordination as well as finger dexterity. Chunky design features an integral collecting cavity for storage and easy flip for retrieval during activity. 12cm square wooden pegboard with 9 pegs. Supervise use – small parts.

W856301 £ 42.95*

W856302 Replacement pegs for 56301 £ 14.95*

Develop bilateral co-ordination skills

Flip Kick Football Game

Super combination of pinball and table football for 2 players. Begin with a "throw in" via a starting hole in the frame and use the flippers (by pressing the buttons on the side) to shoot the ball in the direction of the opposing goal through the team. Keep score using sliding wooden beads. 58 x 40 x 8cm. For 3 years+, small parts. Supervised use only.

W856330

£ 62.95*

Newton's Cradle

Classic pendulum device. Super for those who find repetitive motion or repetitive sound calming and soothing. Start the movement by raising an end sphere and dropping smoothly onto the others. Non-goal orientated, this is a simple interactive activity or can have greater context in groupwork by providing the scientific reasoning behind its development. This is not a toy. Keep away from young children. Supervised use at all times. Size: 17x13.5x13.5cm.

W855887 **£ 14.95***

Kinetic Mobile

Hypnotically beautiful, this tabletop decoration provides perpetual motion with coloured rings turning continuously around a central orb. Ideal non-goal orientated passive relaxation tool. Not intended to be handled. Needs a completely flat, level surface for effective operation and 2 AA batteries (not included). This item is not a toy and use should be supervised at all times. Size: 34x20.5x11.5cm.

W855886 **£ 20.95***

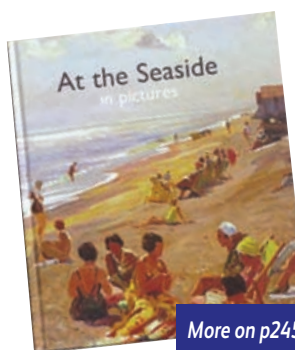

New!

Roll a Ball Tools

Each ball changes colour with a gentle roll of the fingertip. Designed as mathematical aids, but they also provide tactile, auditory and visual feedback, creating non-goal orientated fine motor fiddle tools for those who find repetitive movement calming. Choose 20 turning balls, or 10 turning balls. Supervise use at all times, this item is not a toy.

W856694	20 Turning Balls - 21.5x6x2cm	£ 14.95*
W856695	10 Turning Balls - 11.5x6x2cm	£ 10.95*

The Pool Activity Level (PAL) Instrument for Occupational Profiling

Developed by leading Occupational Therapist, Jackie Pool, the Pool Activity Level (PAL) instrument has become the framework for UK care settings for people with conditions related to dementia, stroke and learning disabilities. The PAL Instrument is a valid and reliable tool for assessing and guiding the right level of care and support to individual's with cognitive difficulties. It is recommended in the National Clinical Practice Guideline for Dementia (NICE, 2006), for activities of daily living and for leisure activity. The PAL instrument automatically produces a comprehensive individualised PAL Guide for download which describes how to support the person in 5 activities: washing, dressing, dining, interaction and leisure activities with information about the individual's name, preferences, routines and likes or dislikes in each activity. Choose:

A paper based version which includes the tool itself and photocopyable activity checklists and plans to enable matching of clients' abilities with appropriate activities.

A USB stick version for unlimited use on a single computer. The Checklist is quick to complete as an electronic assessment that automatically identifies the resident's level of cognitive ability and the resulting PAL Guide is automatically produced.

The Importance of Food & Mealtimes in Dementia Care - Book

For those who have Dementia mealtimes can be disorientating, confusing or even distressing. Managing eating can also be difficult for family members or care staff who may be trying to increase food intake or support challenging behaviour. This book outlines strategies ways of making this activity meaningful, stimulating and rewarding and provide opportunities for individuals to interact, socialise and reminisce. Assessment and planning examples provided, with lots of advice on building design, interdisciplinary collaboration, staff participation. For care home managers and carers.

W856071

£ 13.99

Call to Mind - Game

An enjoyable, stimulating, creative and inclusive communication tool for those with Dementia. Enables conversation and helps promote person-centred care. The questions are designed to discover a person's likes and dislikes in order to tailor activities and generate conversation. Intergenerational so teenagers can play with grandparents, providing an opportunity for shared leisure time. Includes board, spinner, 8 feedback sheets, 48 cards (Active, Creative, Past, Present) and instructions. Small parts - for 3 years and over. Size: box 26.5 x 26.5 x 6cmH; board 49 x 49cm; cards 6.8 x 7.5cm

W855871

£ 42.95*

Location Learning Test (LLT)

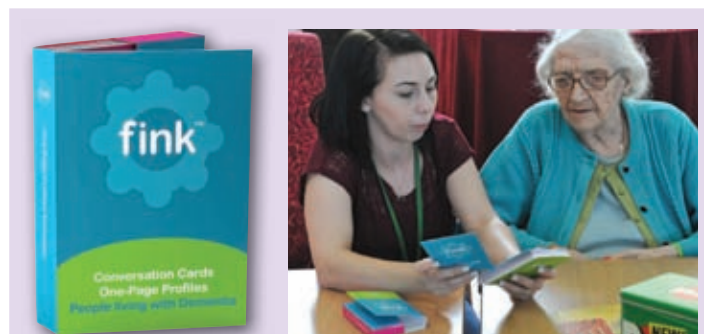

The LLT helps diagnose Dementia, amnesia and mild memory deficits. Can be administered to those with Aphasia as it does not rely on verbal responses. Evaluates the ability to learn spatial locations of everyday objects and offers a measure of learning through repeated testing and a measure of delayed recall. By combining these, clinicians can identify those likely to be suffering with learning and/or difficulty retaining new spatial information. The delayed recall trial is useful for identifying dementia patients from the normal aging process. By purchasing this resource, you are affirming that you are a registered healthcare professional and appropriately trained to carry out this clinical intervention. For 18 – 96 years. Administration time: 20-30 minutes. Includes picture cards, scoring forms and carry box.

W856116

£ 279.00*

By purchasing this resource you are affirming that you are a registered healthcare professional and appropriately trained to carry out this intervention

Conversation Cards One-Page Profiles

A set of 48 question cards designed to assist you in getting to know an individual quickly. A simple way to find out what really matters to an individual from his/her perspective. This knowledge and crucial information will then help you to provide appropriate care and support. Colour-coded topics include:

- Your life so far
- I usually ... I always ...
- Achievements and Appreciations
- Favourites
- Money and possessions
- Best and Worst
- If I could ...?

Simple Colouring Packs for Adults

Winslow exclusive!

These Simple Colouring Packs for adults have been created by one of our designers with input from our Occupational Therapist to appeal to those who have Dementia. Simple, easy to recognise, yet age-appropriate images and uncluttered backgrounds enable adults to enjoy the therapeutic benefits of colouring.

The content was chosen with intentionally simple, easy to recognise and age appropriate images, based around different popular group activity themes to start meaningful conversation, discussion and prompt memory. The activity itself helps to maintain fine motor skills and uses hand-eye co-ordination, concentration, attention etc.

Why not use them as art/colouring/multi-sensory activity sessions by introducing paint, crayons, pastels, or collage the finished piece with rice, coloured leaves, feathers, cut out magazines etc? The finished piece can even be framed for display after completion!

Wall and Door Murals

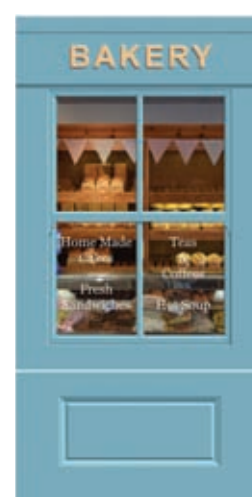

Fabulous high quality printed wallpaper murals designed by a caring team of professional mural artists, photographers and illustrators who create resources solely for the care home industry. Each wall mural has been carefully designed with meticulous attention to content detail, perspective and depth. The subject matters are inspired by residents and residential home requests and have been tested and proven with installations nationwide.

These murals are more than just a decorative, quick and easy way to revamp a corridor or room. They are also practical, being an effective orientation tool for residents. Specific areas used for specific purposes become visibly obvious. For example, a "dining area" can be made to look like a café or a restaurant. Matching door murals are placed over existing doors to complete the theme. The wallpaper has a smooth surface, and a high quality printed finish with vibrant colour. Simple to put up with clear instructions. Standard height: 240cmH.

Contact us for full room projects, personalised designs and self-adhesive repositionable options as well as alternative 280cmH versions.

Please note that these items are made especially for you and printed to order and therefore cannot be returned unless they are faulty.

£ 67.95*

Dansette Style 60s Record Player

This luxury entertainment centre is reminiscent of the iconic Dansette which was a common sight in 1960s British Households with over a million sold until production ceased in 1969. Its versatile design meant it could be used with legs as a freestanding music centrepiece or by simply unscrewing the legs it turns into a portable unit that was taken to parties to play the latest hits on vinyl. Wonderful for use in any residential home, bringing that extra dimension to music themed groups, or simply a super addition for any retro/vintage room to contribute that Sixties vibe! Colour choices: red or light blue (please state when ordering). See www.winslowresources.com for full specification.

The Rocket 88 Jukebox

This model was one of the most common jukeboxes in the UK and frequented many British venues. It has a distinctive, automotive influenced style and prompted some members of our team to start reminiscing when we circulated pictures of them!

Jukeboxes offer both a vintage/retro and a multi-sensory experience, having not only the shape, texture and styling of the casing that prompt memories but also the movement and sound when tracks change, the lighting and of course the music itself! They prompt conversation and discussion and are a real centrepiece for reminiscence rooms or general purpose rooms that facilitate music, exercise or dance sessions. Perfect for many venues including community centres, care, residential and nursing homes etc. Includes:

80 pre-loaded CDs (worth over £300!) with an 80 disc rotating display title track
Remote Control
Shuffle play facility
A D4 digital amplifier (4 channels, 60W RMS per channel)
2 x tweeter, 2 x mid range and 1 x 12" Twin cone bass speaker
Option to connect additional external speakers
2 stereo auxiliary audio inputs
1 stereo audio output
Weight: 120kg
Size: 141H x 78W x 70cmD

Other sizes and finishes are available, please contact us for options. We also offer another model, the much-loved Wurlitzer 1015 (product code 55797).

The Rock and Roll Musical Bingo Series

Enjoy a blast from the past! These great nostalgic bingo games are memory-prompting and excellent for starting conversations in large or small groups and remembering the past. Enjoyable for small or large groups, these huge tracklists have been hand-picked and carefully chosen to bring back memories for those who remember these eras for the ultimate fun! Fantastic bingo fun with a nostalgic twist! Each pack includes 2 CDs jam-packed full of 45 recognisable music snippets (90 total), 2 game versions, a song list, 80 tickets (40 per game) and guidance notes.

60s and 70s TV Programmes - A whopping 90 nostalgic snippets have been carefully chosen to bring back memories for those who remember this era. Examples: "The Flintstones", "The Avengers", "Steptoe and Son", "Open all Hours", "Bill and Ben", "The Sweeney".

60s and 70s Music - The original and now bestselling musical Bingo developed with Rock and Roll Bingo a few years ago. Have fun remembering the sixties and seventies through music, whilst playing Bingo!

60s and 70s Movies - Covers a range of film genres. Examples: "If I could talk to the animals" (DR. DOLITTLE), "Gold Finger" (JAMES BOND), "Summer Nights" (GREASE)...

70s and 80s TV Adverts - Remember those old fashioned catchy jingles? Those ones that get toes tapping, such as "A Finger of Fudge", "Shake n Vac", "Hellman's Mayonnaise"...

80s and 90s TV Programmes - Includes recognisable track snippets such as "Emmerdale", "Fraggle Rock", "Red Dwarf", "One Foot in the Grave"...

80s and 90s Music - Remember the 90s? Shell suits, ripped denim and Stock Aitken and Waterman? Track snippets featured "Heaven is a place on Earth" (Belinda Carlisle), "Take on Me" (AHA), "Love Shack" (B52s), "Common People" (Pulp)...

80s and 90s Movies - Examples include "Take my Breath Away" (Top Gun), "Time of my Life" (Dirty Dancing), "Unchained Melody" (Ghost) and "Hot Stuff" (Full Monty)...

Reminiscence Replica Newspapers

Abridged versions of the Evening Standard, useful for prompting memories for those who may recall viewing or hearing about these iconic moments. Both newspapers also feature product and job adverts, TV and radio listings, cartoons, reviews, classifieds and articles from these periods that can be used to create reminiscence activities or talking points for conversation groups. Choose from June 2nd 1953 with many photos of the Queen on her journey from Westminster for her Coronation to Buckingham Palace or Monday 21st July 1969 covering the Moon Landing.

W855851	Coronation Newspaper	£ 3.95*
W855852	Moon Landing Newspaper	£ 3.95*

Reminiscence Replica Packs

All of these packs contain a variety of replica pamphlets, leaflets, booklets and other paper-based materials all carefully chosen and nostalgically themed. Most of these are either based around leisure activities or are from the 50s onwards. They are great to start to generate conversations whether used in small or large groups, or in 1-1 sessions. Great value for money and ideal for the resource cupboard! Contents may vary.

Leisure:

- Seaside Holidays Holiday Camp pamphlets, hotel leaflets, entertainment programme, Boxing flyer, railway handbill, postcards etc.
- Motoring The Motor magazine, Austin Eight brochure, variety of motoring ephemera, Morris Traveller and Vauxhall Viva sales brochures, 1933 Driver's Licence etc.
- Garden Lawnmower brochures, Garden Work newspaper, 'Kilzall' pesticide flyer, "In your garden" leaflet, Woolworth's booklet etc.
- Train I-SPY on a Train Journey and a Flying Scotsman Booklet

1960s & 1970s:

- 1970's Childhood Superstar magazine, Argos catalogue, EMI cinema preview, Rediffusion TV leaflet, Viewmaster leaflet, Subbuteo pamphlet, concert tickets, panto flyers, postcards etc.
- 1960's Childhood Ellisor's novelty catalogue, Beatles ticket, Fleetway Annuals brochure, toy leaflets including Action Man, Lego and Sindy, school report and essay, tricycle flyer etc.
- 1950's Household Ration Book, Radio Rentals brochure, More fun with your food booklet, Hygena Kitchen pamphlet, Ponting's fashion catalogue, More glass in your home brochure etc.
- Beatlemania Four Beatles booklets stuffed with photos and stats, fan club paperwork, concert handbills, 1963 programme, Cavern Club booklet, mixed ephemera plus a collection of bubble gum cards.
- Cold War Abridged version of the Evening Standard, Guided Missiles booklet, Survival booklet, Top Secret telegram, poster images, security passes etc.

Reminiscing Our Heritage – the 70s to the Millennium - Book

Designed to be used by anybody working with older adults in residential, nursing and day care facilities. Provides a wealth of reminiscence material which can be used in a number of ways to rekindle memories and provide stimulating activity such as quizzes and discussion. Each year covered in the book is divided into the sections 'Major events', 'On the home front', 'Music', 'Television', 'Screen and page', 'Sport' and 'Do you remember?' For use with individuals and groups. Includes a blank page for each year for you to record your own personal landmarks and achievements and also those of your local town or community.

W855756

£ 34.95

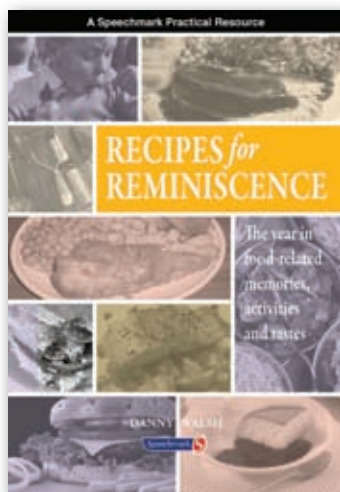

Recipes for Reminiscence - Book

As food plays such an important and pleasurable part in our lives it triggers many memories. Linking the activities and reminiscence ideas here with recipes will further enhance the recollection and allow us to re-experience the tastes of the past. Each chapter includes 'old' recipes for foods and drinks throughout the year and across the decades, and around these have been woven activities, quizzes and reminiscence material. For individuals or groups. Use it as a weekly schedule or just dip in and out of it at will.

Fisher Price Classic Range

This iconic range of toys have been delighting children for generations! These classic designs have retro packaging with the old style Fisher Price™ logo and description of the history. Wonderful for adults for reminiscence activities, they often conjure up meaningful memories of playtime and childhood. These are also toys and still suitable for infants so can be enjoyed with visiting young relatives. EU customers only.

55844

55844

Delighting children for generations

- **Two Tune Television:** Launched in 1966, it plays two classic melodies "Row, Row, Row your Boat" and "London Bridge is Falling Down" as the pictures to the music and words scroll across the screen, encouraging children to read, sing, clap, engage and learn. For 12 months+
- **Little Snoopy:** Launched in 1966. When his lead is pulled, Snoopy makes a yapping sound, wobbles around and his ears move. This simple but adorable toy is still loved by youngsters today as well as bringing a smile to those who remember him from their childhood. For 12 months+

56213

Great for adults in
reminiscence activities

56217

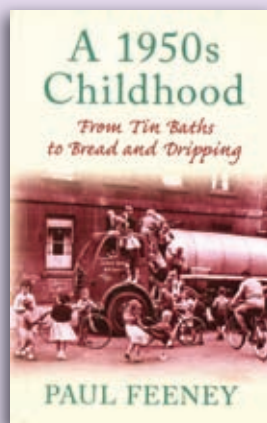

56212

Classic toy designs in
retro packaging

- **Chatter Telephone:** Launched in 1961. This iconic toy was known as the "Talk Back Phone". Created to teach youngsters how to use a rotary dial for operating a telephone. With eyes that move up and down, a ringing dial and a "chattering" noise when pulled along the floor. For 12 months+
- **Record Player:** Launched in 1971. Place one of five double-sided records on the turntable, wind up and place the needle on the record to hear the classic "music box" rendition of different children's melodies including "Jack and Jill", "Hickory Dickory Dock" and "Humpty Dumpty". Requires 3 AA batteries (not included). For 18 months+
- **See N Say the Farmer Says:** Launched in 1965. This was the first talking toy that allowed children to choose the sound that they wanted to hear. Turn the arrow dial to select one of 12 farmyard animals and then pull the cord to hear the Farmer say the name of the animal and the sound that it makes. For 18 months+

Hand Shadows Books - Set of 16

Set of 16 page mini books provide instructions on creating 32 different silhouettes by simply using hands and your own source of light! Shadowgraphy has been practiced for centuries by different entertainers and is a great, simple way of enhancing traditional stories and rhymes in various settings. In groups, hand out books to everyone so that they can learn how to create different shadow characters and interact together to illustrate a book, perhaps use imagination to make up tales together. This activity not only has cognitive benefits but also requires fine motor skills.

Full of Traditional childhood games

You're It! - Book

All about traditional childhood games that epitomise all that's exciting about being young - the ability to play simple and silly games for hours, till Mum called you in for tea.

W855615

£ 7.00

For over forty years, Schylling, Inc. has specialized in timeless toys. They started out making delightful playthings from a bygone era. Over time they have built a distinctive collection of innovative gifts and traditional toys with nostalgic appeal for all ages. Schylling works to create the future in toys by captivating new designs and intriguing refreshes and innovations of toys from the past. Among these lines are the iconic tin toys that have been an important part of the history of the company. Schylling is the world leader in the manufacture of Jack-in-the-Box toys and tin Kaleidoscopes, among others.

The Schylling Collection

From the Schylling Collector series. All of these tin toys are replicas, in retro-style packaging and come with a certificate of authenticity. They are ideal as props for group activities to prompt memory recall of childhood memories and play, or as an ornament. They are for reminiscence purposes only and are not toys. For 14 years+.

- Tin Train:** A delightful clockwork metal train with a traditional turning key mechanism that drives the train forward. Size: 5x3.5(without key)x35cm.
- Sparking Mike Robot:** A walking wind-up tin robot with an on/off switch. Size: 19.5x8.5x6.5cm.
- Grand Prix Race Car:** Makes a "piston pounding engine sound" as it moves across the floor. Size: 9x21x9cm.
- Airplane:** Push along a flat surface. The friction motor makes a motorised sound and travels forwards of its own accord with propellers spinning. Size: 7.5x20x19.5cm.
- Martian Invader:** Wind up, and watch the space creature walk across the floor on his 6 long legs. Size: 24x14x15cm.

Themed Dot to Dots for Adults - Sets of 48

These dot to dots packs have been carefully and purposefully created and developed. Numbers are enlarged as big as we can make them to aid those with deteriorating eyesight and carefully placed to not detract from the picture. There are varying numbers of dots for gradeability in therapeutic contexts. Developed with input from a variety of end users in different settings. Designed and developed by our illustrator with input from our OT. Each pack is a set of 48 A4 sized sheets.

- Pets: Goldfish, dog, guinea pig, rabbit, bird & cat
- Gardening: Watering can, wellington boots, seeds & hand tools, vegetables, seedlings & flowers
- Seaside: Lighthouse, icecream, seagull, beach huts, boat & bouy, bucket & spade

"Dementia users struggled with the numbers but enjoyed joining up the lines anyway. Discussions on the seaside followed. Those without Dementia enjoyed finding the pictures and the discussion afterwards. A nice activity to be done in groups or individually. The pictures are not childish."

Ms O'Hagan (Activities Co-ordinator)

Writing Life Histories - Book

Gives clear guidance on how to put together life histories in supportive or residential settings. Provides step-by-step guidance, ideas for different types of life histories, activities, strategies and material for prompting memories, helpful tools and writing tips, suggestions for support and forming partnerships with other local services, ideas for involving the person's family and friends; and discussion on ethical issues to be considered. Knowing about past experiences of residents, staff may better understand their behaviour, needs and outlook, resulting in more personalised care.

£ 30.95

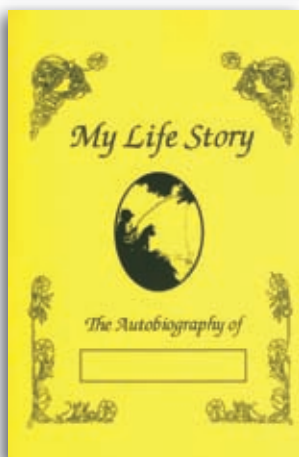

Down Memory Lane - Book

Updated version with 15 new sessions, for a total of 65 themes for reminiscing and discussion. Each chapter has 3 sections: IN THE MOOD offers suggestions for gathering music as well as visual aids. ACTIVITIES provides short answer and trivia quizzes, guest speakers, memory sharing about an aspect of the theme, singing, hands-on activities, or listening activities. DISCUSSION stimulates further conversation and sharing of memories. Topics include: Camping, Cars, Christmas, Dating, Games, Hair, Marriage, Money, Relatives, Sweets, Weather.

W851379

£ 29.95

My Life Story - Book

Covers early years, school, work, leisure and family life. Provides an ideal opportunity to organise facts and memories into a personalised biography. This excellent large print resource allows the professional to photocopy sections which can then form the basis for reminiscence sessions either individually or in a group.

W851766

£ 32.00

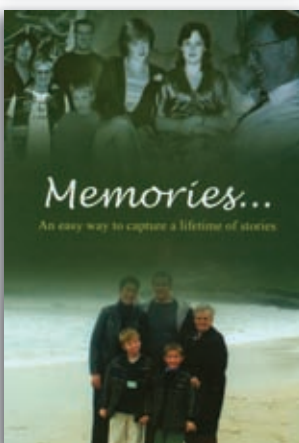

Memories for my grandchild - Book

A keepsake to create, share and treasure. A beautifully-illustrated hardback book to encourage musings, memories, communication and discussion. With pockets and blank pages for further personalisation. The book can be completed with other family members as a joint or group activity, or by one individual so that the book can be later given as a gift. With questions that will encourage inciteful and enlightening answers.

£ 11.95

Memories - Book

Designed to help you write down a wide variety of memories from your life, either to share or keep - a personal collection of priceless moments in your life. You are prompted with simple, easy to answer questions, and given ample space to expand on any topic, or attach photographs/mementoes. You'll be surprised that even the more mundane, day-to-day activities of your life will be amazingly interesting to future generations!

ELIGIBILITY DECLARATION BY A DISABLED PERSON

Please note there are penalties for making false declarations

Customer

If you are in any doubt as to whether you are eligible to receive goods or services zero-rated for VAT, you should consult www.hmrc.gov.uk before signing the declaration.

I (full name)

of (address)

declare that: I am chronically sick or have a disabling condition by reason of:
(give full and specific description of your condition below)

and that I am receiving from:

WINSLOW®, GOYT SIDE ROAD, CHESTERFIELD, S40 2PH

* the following goods which are being supplied to me for domestic or my personal use:

(description of goods)

* the following services to adapt goods to suit my condition:

(description of services and goods)

* the following services of installation, repair or maintenance of goods:

(description of services and goods)

and I claim relief from value added tax.

Date:

VAT RELIEF

Relief from VAT is only available on certain goods.

Relief is granted subject to all the following conditions:

1. The goods are being purchased by an eligible body, or charity for donation to an eligible body.
2. Supplies to or for donation to an eligible body must be funded entirely from charitable or voluntary contributions.
3. The goods are supplied or made available to persons with a disability.

We must point out however, that many of our products which are of benefit to people with a specific disability may not qualify for relief as they are designed for wider use. That is to say, if the designer of a product did not specifically design the item for disabled people, then it is regarded as a product that has been designed for wider use and as such must be subject to VAT. We are bound by the laws of HM Customs and Excise and have a legal obligation to charge VAT on certain products.

There is no blanket exemption from VAT for disabled persons or charities.

Our products are not classified as medical equipment.

We cannot, therefore, accept declarations requesting exemption in this category.

PLEASE NOTE

1. Prices exclude VAT and are valid until 31 December 2018. However, prices are subject to change without prior notice. These prices supercede all prices previously published by WINSLOW®
 2. Products are Zero Rated unless otherwise indicated. * Indicates VAT to be added.
 3. Products eligible for Vat Relief have 'VAT Relief' beside the price. Details for eligibility are indicated on the top of this page.
 4. Prices are in pounds sterling and exclusive of VAT and handling and delivery charge. VAT will be added to all invoices unless a VAT Relief form is received with the order.
 5. A delivery & handling fee is payable on most orders.
 6. WINSLOW® aims to despatch most orders within 48 hours of date of receipt. However certain products such as those marked may take up to 28 days.
- WINSLOW® aims to give you a high level of customer service.
Please read terms and conditions of sale to prevent misunderstandings.
Terms and conditions are available from WINSLOW® upon request

ORDERING DETAILS

Private Individuals:

Complete the WINSLOW® order form, this must be accompanied with full payment. Cheques/Postal Orders should be made payable to WINSLOW® Ltd. Credit/Debit card payments are acceptable if the relevant section of the form is completed.

Official Organisations:

May submit their order using their own official order form, quoting a valid purchase order number. However payment will need to be received in advance unless a credit account has been approved.

For Credit Account holders an invoice will be generated and forwarded to the invoice address on dispatch of goods and payment will be required within 30 days of invoice date.

Further order forms are available on request.

RETURNS POLICY

As a Consumer, as defined by the Consumer Rights Act 2015, you have the right to cancel and return items within 30 days of you receiving your order. Please note that some products are non-returnable and are marked in the catalogue with the icon **Non returnable**. Please contact us for a return authorisation reference. Do not return a product without a return authorisation reference.

Please take extra care when viewing your products as goods must be returned in pristine condition, unused and in their original, undamaged packaging. Where goods are received back in an unsatisfactory condition an amount may be deducted from the refund to reflect the amount by which the value of the product has been reduced. If you are not a Consumer, Winslow® reserves the right to apply a 15% re-stocking fee. All postage costs are non-refundable unless the item is faulty. We do not offer a pre-paid return service. We recommend that you return your products on a signed for service - Winslow® cannot be held responsible for any missing parcels sent by the customer.

If you have received an incorrect, faulty or damaged product, please contact us on 01246 210416. Damaged products must be reported within 48 hours of receipt and missing items within 7 days from the date on your invoice.

PHONE: 44 (0)1246 210416 / ROI PHONE: 0818 244 277

ELIGIBILITY DECLARATION BY A CHARITY

Please note there are penalties for making false declarations

Customer

If you are in any doubt as to whether you are eligible to receive goods or services zero-rated for VAT, you should consult Notice 701/77 VAT reliefs for disabled people or contact the Customs and Excise National Advice Service on 0845 010 9000 before signing the declaration.

I (full name and status in charity)

of (name and address of charity and registered charity number)
